Reference your E Mail forwarded 12/21/16 - Project Reporting

 Attached draft of proposed reporting for LSJ &a=p; GSJ

"Current Updates" would show the="important" projects, with latest update & photos if require=

"History" would show the History of al= Projects, including Current as a back up

Everyone would forward updates to the ████████████████████ <mailto:thesaintjam=s.group@gmail.com> as =equired, then a full report would be forwarded once a week to the required=parties

Is this what you are looking for?</=iv>
If not please advise
Thank you
War=est regards
Karen
