Good Night Boss

If GSJ has power. =I would like to do a site visit to run updates on GSJ computers like I did=for LSJ.

I must apologies to you and Anna. =n following the checklist given to me the iPad battery level was missed. I=checked the landline, Macs, and wifi devices, yesterday, but the list did =ot have 'check ipads'. I should have been more aware and not 100% =ocus on the list. I will edit the list and share the corrections with Kare=.

Once again I apologies for overlooking "ve=ifying ipad battery levels"

Regards
J Ruan
