Reply-To: =/b>James Bird <[REDACTED]>

Richard,

As a follow up =o my communication with Carluz this morning, I have rescheduled =he crew to other work.

However, based on your email this afternoon I will change =hat again so that we begin the project tomorrow May 18.

Either way =akes no difference to me but it is important for you to understand that =e have more heavy rain predicted for Fri, Sat, Sun, Mon which could =ffect our timing on the other end.

As long as you =re good with this we will readjust again and move forward starting =omorrow.

Alternatively, =f you wish we can schedule all of the work to be completed after this =iant weather front moves on and when Mr. Epstein leaves.

Either way is =kay with me. Just trying to accommodate all of your and Carluz's =oncerns expressed to me.

Jim

thank you for update
please begin project =omorrow
my understanding now is that mr =pstein will arrive may 25th so that must be our target completion
=ate
please call me with any questions
thanks

Rich,

I spoke with =arluz earlier today and I understand that Mr. Epstein is coming in =arlier than expected.

The crew with an extra man was scheduled to work tomorrow, =riday and Saturday and of course all next week

based on the recent time schedule.

We have worked =ery hard to work around the rain and rescheduling other work in order =o plan this time before

Mr. Epstein arrived May 26.

If Mr. Epstein arrives earlier than planned we could always =top working and return after he leaves. This might even give him =he advantage to see the work in progress if there are any adjustments =e may wish to make. In almost every job we do since they are =ustom, customer input is typically positive during the process. It =ikely would not affect any cost, just design elements.

Let me know =our thoughts.

At =resent time material is there and workers are scheduled Friday and =aturday as well as all next week.

Jim
