Richard,

As a follow up to my communication with Carluz this morning, I have rescheduled the crew to other work.

However, based on your email this afternoon I will change that again so that we begin the project tomorrow=May 18.

Either way makes no difference to me but it is important for you to understand that we have more heavy rain predicted for Fri, Sat, Sun, Mon which could effect our timing on the other end.

As long as you are good with this we will readjust again and move forward starting tomorrow.

Alternatively, if you wish we can schedule all of the work to be completed after this giant weather front moves on and when Mr. Epstein leaves.<=r>

Either way is okay with me. Just trying to accommodate all of your and Carluz's concerns expressed to me.
