Subject: Thank you

Jeffrey! I am so sorry hear that! And I am so sorry for the late reply I was in bed and couldn't move with night fever and antibiotics because of an infraction of my gland in the neck. I was so scared I was not getting better for all the antibiotics I took in October. I fell much better now. I also wanted to thank you so so much for everything you did for me in New York. It has been such a great experience and I think I grew as person thanks to you. I loved everything and I felt very much loved by you and all the girls which I love so much! I have no words how to thank you enough! How are you? How is everything? News? Are you in the island? Xxxxx
