Dear Larry

That's good news and hopefull= we can move things along quick. The slot reserved is on the 18th Dec so l=t's coordinate accordingly.

You can =tart arranging the borescope team to come over and do the job. This should=take a week between the time they come here and get access passes to the a=rcraft and hangar. I will work on the aircraft availability and hangar boo=ings.
In the meantime we need to add the Borescope to the=Aircraft Purchase Agreement as an additional separate item. This protects =s and you legally, therefore the quicker we sign the purchase agreement th= quicker the borescope can be done and we move on to PPI.
=/span>
Looking forward to hear from you
Regards
Husham
