Jeffrey,

We had a slight delay measuring the pool area because of the weather, but no= that is done, we have been able to develop the concept design. I will be s=nding you a floor plan and simulation by Tuesday. I am also going to send y=u information on a sliding and folding glass wall that I would like to inco=porate into the design behind the arches. It is frameless assembly that wil= preserve the transparency of the view to St. John while providing the nece=sary wind breaker. It can also be opened completely so that when the pool i=n't being used, the area will be almost as open as it is now.
