Bob told us that if =he membranes tested 800 then it would be normal and if it test 1000 then i= would be bad. Our main membranes tested 7000 which is pure salt water tha= was contaminating the cistern water.

Tomorrow morning at 10am Bob wil= come out to rebuild the manifold, change the port adapter and work on the=intake under the dock. After the maintenance service is done it will still=run manually but the water will be purifying properly.

Bob will=send a report tomorrow afternoon.

Ann R.
