Hi Rich  
I spoke to Umut who is Richards design engineer who's office in the hanger where boat is located,,  
Boat is ready for color,, first Dark Blue bottom, then upper surface light gray,,  
The hold up last week was the small boat in front of the Nautica needed to get finish, and removed from hanger  
so guys could start spraying,  
Certainly not our problem, and Richard should make arrangements to clear the hanger so spray can start,  
Still hoping for Paint to be completed by week of Dec 26, then I'll make arrangements to bring boat back to Palm  
beach for final engine rigging and Generator and air conditioning functional test and rigging,,  
- the way this project has been going and the amount of work to make the boat correct, my gut tells me Ship  
date first part of January,,

Thx  
Larry
