Subject: Plan D LLC phase 2 of work clarification

Hi Jeffrey,

In preparation for the next phase of work on the 550 I wanted to have some further clarification on a few items;

1. Grospoint in closets – do you have a color in mind or would you like us to provide some recommendations?
2. Galley drawers- There was an email stating to “organize”. Would you like to see some acrylic dividers to compartmentalize items? Or did you have something else in mind?
3. Carpet – Would you like to move forward with any of the construction samples sent? The denser version should hold up better over time.
4. Headliner/PSU – the Ultrasuede China White shows it was delivered to you. Do you approve? If not, I have some additional options on their way. I will advise when I’m in receipt of them.

In response to your email about additional carpet. We do not have any leftover twilight carpet here to patch under the divan area. If there was any leftover it was taken by JoJo back to storage. I can reach out to Larry on that.
