al is not that guy

On Mon, Nov 28, 2016 at 1:59 PM, Brice Gordon <pan dir="ltr"><mailto: [REDACTED]> > Initially he said he could, but after review of equipment Al is not sure it will work I have attached a list from Jermaine regarding issues etc- these will be added to Punch list If you are OK with Al coming down - I propose we create a list of items that need to be addressed, and equipment that may need to be replaced so AL has a clear scope of work

Shall we proceed with creating a scope of work for Al for your review?

Good day Rich

As per our previous conversation the following is a list of items I feel may need addressing (these are only items that I would like to address in the near future):
=&/u>

1. =A0Main Compound

a.<=pan style="font-size:7pt;line-height:normal;font-family:'times new roman'"> New wiring for Cabana=2

=A0 =C2 =A0 =C2 =A0 i. T<=br>he existing corrodes quicker in this cabana than the others.<=u>

b. =A0 New Speaker wires for Chillax Room Audio System =u>

=C2 =A0 =C2 =A0 =C2 i. The system does not sound nothing like the flagpole pool. I would like to boost it a bit to at least equal the tiki hut audio system.

c. =A0Google wifi is going to be ready in December. =/p>

=C2 =A0 =C2 =A0 Need to find a valid test area. (Possible install on GSJ vs LSJ)

2. Flagpole Pool </=>

a. =A0 Changing the exterior speaker wires.<=u>

=A0 =C2 =A0 =C2 i. The exterior wi=es are corroding although I been treating the connectors to slow it down

3. Wood Shop

a. Move the wood shop switch =ext door to captain's office

=C2 =A0 =C2 =A0 i. =A0 The wood shop switch needs to be in an AC =nvironment. It feeds the existing captain's switch and Flagpole po=l's switch nothing else.

4. Gym <=p>

a. =A0 Brice wants to suggest a new audio system. I recommend stre=mlining the existing equipment and removing any equipment that serves no p=rpose (but we need a clear understanding from JE what he wants in the gym.=

b. =A0 I would like for back of the cabinet be b=ilt in a way that's easier to work with.

5.<=pan style="font-size:7pt;line-height:normal;font-family:'times new r=man'"> GSJ </=>

a. =C2 Run fiber from the Dragonwave tower to the Compound Swit=h (making it the master switch vs the switch in Chris cottage)</=>

6. LSJ/GSJ=u>

a. =C2 A valid self-monitoring app for our system=C2

=C2 =A0 =C2 =A0 =C2 i. I don=E2 t think they are monitoring the links on a daily bases. Every time=there is a problem we are the ones calling them vs getting a call stating =E2 you have a problem.... But we are addressing it ... ET= XXX'

</=>

These are things I want to address but they are not on the JE punc=list. Most of these thing can be handle in house.
