first page of estate and trust Admin that alan gave out, =C2 first two paragraphs is emblematic of the goofiness and incomp=tence of the office. It has in on ly the first two parag=aphs, three numbers from three separate dates -weeks and months apar= and then they add them together. ? june 30 =inancials. is 1 date it says stock price of 18, d=fferent date and then put s in 19.20 per share.for a thi=d date . THEREFORE all sums inaccurat=. mix specific today numbers with rounded fu=ure projections. . all it would take is to put in todays numbers con=istantly as it should always be done. it should be=C2 a snapshot . not a conglomeration. and easily done=with the correct IT program.

ACCURATE numbers=C2 ! first and foremost.

I w=ll not be involved moving foward but will share my views with you ei=her face to face or skype.
