Jeffrey, this is=regarding the television ECG device, the one you found. Should I order? They guy also called me, sounds like what we need (compatible with iP=one, Mac. There is an app. can send it to another doctor via PDF, or if the=doctor registers in the app, he can view it online). It is 12 lead, no elec=rodes needed.

Subject: f=ollow up to our call today

<=div>

Hi Dr. Shuliak,

Thank you for y=ur interest in smartheart, the world's first, hospital grade 12 lead ECG d=vice that has been cleared by the FDA for both professional and patient use= Smartheart leverages the technology of any Apple or Android smartpho=ne or tablet. The unique belt design eliminates the need for stick on e=lectrodes and special skin preparation. All one needs to do is wet the=skin in the areas the belt or the two probes come in contact with the skin.=nbsp; It takes less than 2 minutes to complete the ECG. You may send t=e ECG to any physician either through the app or through a secure online po=tal.

I have included a PDF rendering of our brochure as well as our us=r manual to provide additional insight. The price for the device is \$=,225.00 plus \$24.50 shipping and handling. To order the device all yo= need to do is give me a call, I will take your credit card information and=the device will be delivered within 3-5 business days. We will then s=t up an approximate 40 minute training session via the phone and you will b= operational immediately following.

Please feel free to reach out to m= via my cell phone at any time [REDACTED].

Thank you for your intere=t.

Best regards,

Bob Sass <=:p>
