Dear Barnaby:

Martin Nowak has been telling me about his proposed new research applicatio=s of evolutionary game theory to the behavioral sciences. As you know from=our prior discussions, I'm very interested in supporting Martin's work= I understand that the John Templeton Foundation is currently considering = project proposal, in which I would have the opportunity to partner with t=e Foundation by providing additional funding, specifically that \$1,500,328=[\$1,304,633 direct costs + \$195,695 indirect costs] from Harvard Universit= fund 347150 has been budgeted for this project.

In 2003 I established this gift to the Program for Evolutionary Dynamics to=support precisely this type of cutting edge research. Please know that the=stated amount has already been secured by the University and that Martin=92s administrative team intends to apply said funds to this project for th= proposed 3-year period [January 1, 2016 - December 31, 2018]. I am very e=thusiastic about the potential of collaborating with the John Templeton Fo=ndation as we have a shared mission to promote important and timely resear=h.

Yours sincerely,
