Hey Bo=sman,

Please advise payment for the New parts &= Installation for the R/O Plant.

The water level in each Ciste=n is at 2ft, Smiley said that we cannot let it get to 1ft because it will b=ow the distribution pump if it gets to low.

An= R.

=

Anna,

= Please see the attached quotation and m=terials list needed to replace the complete internals of the High voltage M= Panel at LSJ. This price does not include labor to install. LSJ has three h=urs left on the books, and I figure to spend 8 hrs. onsite to replace the panel. Total additional labo= for installation would be 5 hr. @ 100.00/hr. \$500.00 in addition to the at=ached quotation.

Call me with any questions,

Patrick Adams
