WORK SCOPE

Banyan Air Service is pleased to provide this proposal for the avionics upgrade on your aircraft. If this proposal fails to meet your expectations for any reason, please contact Alvie Barron at 954-612 7252 or Email abarron@banyanair.com

N212JE PROPOSAL FOR AVIONICS UPGRADES

ITEM #1 REPLACE AIRSHOW WITH NEW AIRSHOW 4000

Airshow 4000

Remove the existing Airshow system and install a new Airshow 4000 with Version 2 software, "the Next Generation of in-flight information.". Pricing includes new connectors, hardware as required and a \$-5,000 trade in for the existing Airshow 400 system.

The Airshow capabilities include 3-D maps with IP-based connectivity over broadband system and a host of optional features.

Baseline pricing for the new Airshow 4000 with World Wide Map package installed \$ 63,430.00

Bundled Network Feeds	CPN	Qty	
Network 3-Pack	N003	1	\$5,872
Network 6-Pack	N006	1	\$10,712
Network 7-Pack	N014	1	\$12,464

KEY SOFTWARE HIGHLIGHTS INCLUDE

- Blue Marble map set provides great detail, color and coverage worldwide
- Innovative 3D time and flight status displays
- Realistic day/night views on all 3D maps
- A "Head-Up" display capability offering a pilot's eye view of the flight
- High-speed broadband enabled capability offers a new and faster alternative to download Airshow Network updates

3D Relative Location Indicator

See your direction of flight, heading North, South, East or West, with a compass that always shows North and your aircraft positioned in the direction of travel. Additionally, see your aircraft location relative to as many as three specific points of interest.

Real-time Day/Night 3D Maps

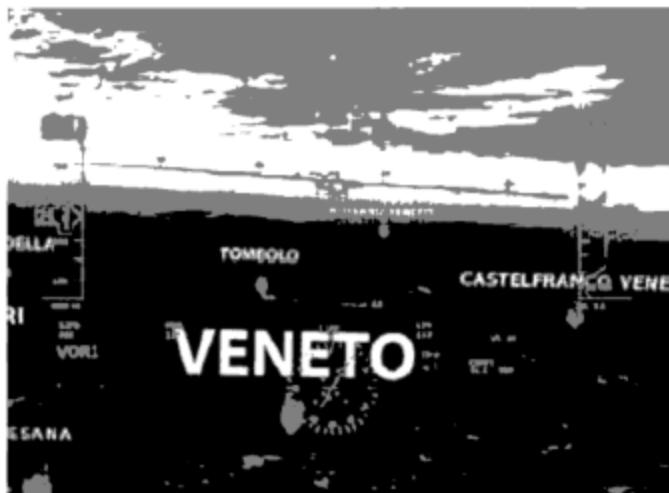

The sky scenery on 3D maps now gives indication as to what time of the day it is. The smooth graphical transition allows for the appearance of dawn, day, dusk and night.

WORK SCOPE

HUD Graphic

Virtual pilot's eye view using the aircraft's flight and navigation information. Requires pitch and roll labels to be available on ARINC busses.

Time Zone Globe 3D

The day/night world map traces the sun's path throughout a 24-hour period.

WORK SCOPE**Down time:**

- We will require approximately 3 days downtime to complete this workscope.
(Working weeks are Monday to Friday excluding Holidays)
- The equipment lead time is currently 3 weeks.
- Complete and accurate wiring diagrams are due in advance to begin engineering and place equipment orders.

Note: The customer must furnish documentation including logbooks, accurate avionics wiring diagrams, avionics equipment lists, electrical load analysis, and weight /balance data to facilitate this installation. Incorrect, inaccurate, or failure to provide wiring diagrams will result in additional time-and-material charges and could affect downtime.

Banyan's General Terms and Conditions

- Pricing Based on factory configured installation.
- Pricing does not include freight charges, applicable sales tax, crew or fuel for any flight-testing, de-fuel or charges incurred due to unforeseen damages.
- This pricing does not include any software or hardware modifications to existing EFIS or other external systems/components that may be required to facilitate this installation.
- Quote/Flat rate pricing does not include repairs on any discrepancies that may be found. Upon arrival of the aircraft, an incoming inspection will be performed; an estimate and quote will be provided for your approval based on our current shop labor rate at the time of service per hour. Arriving squawks or squawks found on the incoming inspection could affect the downtime.
- Quote is valid for 30 days at our FXE Banyan facility.
- Pricing does not include any travel expenses if work is to be accomplished outside of Banyan Air Service facility unless stated in writing.
- Interior access is not included.
- Pricing based on sufficient space available to mount the quoted equipment, if any existing antenna/units need relocating to accommodate the installation of the quoted systems (Unless stated in the Quote), additional charges will occur.
- Pricing does not include any fees (if required) from foreign government agencies for approvals to install the above quote equipment. This only applies if not US registered.
- Existing aircraft equipment must be current with software levels and compatible for interfacing with quoted equipment.
- There will be a 15% handling fee charge added to the list price for any customer provided parts.

Note: Banyan will not warranty customer provided parts.

WORK SCOPE

Banyan's Payment Terms

- This proposal and the progressive payments that may be required are based on check payments or wire transfer. Additional fees may be added for other methods of payment.
- There will be a charge equaling 4 % of the total labor added to your invoice to cover shop consumables.
- Banyan Air Service, Inc.'s policy requires a 50% deposit on all estimates over \$10,000.00 regardless of customer's terms. The balance due upon completion of the installation and aircraft returned to service.

Warranty

- The installation will have a 1-year warranty.
- All warranty considerations must be performed at our FXE Banyan facility. Customer is responsible for all travel costs for Warranty work performed outside of Banyan.
- Banyan is not responsible for factory warranty shipping charges for repairs.
- There will be an additional charge to correct any existing aircraft record discrepancies, (i.e., Logbooks, W&B sheets or FAA form 337s).
