Subject: Some of the Squawks - please read
Attachments: image007.jpg; image008.jpg; image009.jpg

Jay and =arry,

</=:p>

I have =xchanged numerous e-mails with Jeffrey last night and this =orning. Further, Jeffrey and I just spoke on the phone discussing = few of the squawks.

</=:p>

By no means =s below the total list - just a few of the items that were discussed to =e included in a formal list for us to work off.

</=:p>

Divan-</=:p>

JE notes =hat the foam build up on the GIV is different than the GIIb. =o:p>

Additionally,=JE states that the foam densities on the new back and bottom cushions =f the divan in the GIV are different and noticeable when you deploy the =ivan to the berthing position. I want to open up both divans to =ersonally see and identify the foams that were used. Bottom line =s that Jeffrey wants us to use the foam from the GIIb in the new =pholstery for the GIV.

</=:p>

Entry =urtain-

Jeffrey had =oted previously that he would like the gap between the top of the entry =ain curtain and the headliner kept to an absolute minimum to help keep =he noise out from the entry door to the cabin.

</=:p>

Main Cabin =rea Fluorescent Lighting-

As =dentified prior to flight, there are certain lights in the upwash / =ownwash lighting that are inoperative and/or =ntermittent.

</=:p>

R/H =alley-

Difficulty =employing the fwd slide out cutting board.

</=:p>

Doors - =o:p>

There are a =ouple of door in the galley and aft lavatory that opened in =light.

</=:p>

Aft Lavatory =o Baggage Door-

JE =dentified that the door would not latch =properly.

</=:p>

L/H #2 =ingle Seat-

JE noted =hat when compared to the R/H #2 seat, the electric seat function =ontrols are not sequenced the same (fwd / middle / aft switch =unctions). Additionally, JE would like to know if there is a way =o “limit” the recline on this seat so that the passenger =oes not “crush” the back of the aft facing double =eat?

</=:p>

R/H #2 =aster Switch Panel-

JE had =previously requested that we look into if MCC could reprogram the two =2) discarded switch functions to control the shades “ALL =P” and “ALL DOWN”.

</=:p>

Galley and =avatory Door/Drawers-

JE had =equested we apply the clear bumpers to prevent the doors and drawers =rom rattling.

</=:p>

Tables-<=o:p>

JE noted =ifficulty in the deployment / stowing of the side ledge tables in =light.

</=:p>

Entertainment=System -

Obviously we =eed to send the battery back-up out for repair/ replacement so that it =olds the institute settings of the head unit.

</=:p>

Cockpit =amera-

</=:p>

Larry, =lease add or expand on the items on this list so that we can clearly =dentity and understand the squawk and so that we all work off of one =1) list to resolve these items.

</=:p>

Thank =ou.

=nbsp;| PRESIDENT

Subject: Re:

Lights =ut, bed not right. stereo not working, tables not working. =oors not closing or not opening. shade switches not working = camera not working. . apple tv not working, and =ore.. I know it will get fixed. and i =ppreciate it very much, we are five weeks over. and another =eek is needed not hours.

On Fri, Sep 27, 2013 at 10:07 PM, Eric Roth <[REDACTED]>=rote:

I just sent Larry an email that we'll =peak in the morning- I am very confident that we can resolve all items =n minimal time(rattling doors, etc....). Obviously want to make sure =ou are happy.
