

STRAP LIFT - BI-FOLD DOOR QUOTE

Terms - 25 % Deposit with the order

† 25544.00

Required - Copy of Cashiers Check
Prior to Shipping

All Payments In IIS Funds Only Please

Schwules does are provided with temporary

- Schweiss doors are provided with temporary electrical wiring that is only to be used for the initial setup. Temporary wiring must be removed, hookups must be done by a licensed electrician. Schweiss is not responsible for the final hookup of your door. Failure to do this will void the warranty.
- The customer is responsible for the bi-fold or hydraulic door building header & side columns.
- The opening must be prepared with a built in header that is flush with the side columns. Your header, side columns & building must be strong enough to hold our bi-fold or hydraulic door.
- If Schweiss installs the door, the customer furnishes and installs the outside door sheeting and trim to cover the door unless otherwise specified.
- The terms and conditions are included in the attached terms and conditions sheet are incorporated herein.
- I have read through the Purchase Order, the Attached Terms and Conditions, reviewed A1, A2, A3, A4, A5 and A6 (A7 hydraulic only) Spec Sheets and agree to their contents.

The logo for Schweiss The Door Leader. It features the word "SCHWEISS" in a large, bold, black sans-serif font. Above the letter "S", there is a stylized graphic of a door opening, consisting of a grey star-like shape with radiating lines and a horizontal bar. Below "SCHWEISS", the words "THE DOOR LEADER" are written in a smaller, black, all-caps, sans-serif font.

RED POWER
