Subject: m/v JOHN O POINT; Howe Marine Surveys Purchase Survey #P150513<=b>

Dear Ann,

Please find attached the Purchase Survey Report that you requested for the vessel detailed above. Thank you for the work.

=p class="MsoNormal">>A couple of comments to consider:

2. = I would suggest, before further research, that the installation of new engines will cost at least the amount of your agreed purchase price at \$62,000. I would roughly guess that full repowering would cost close to \$80,000. That is just an educated guess at this time.

Additional photos of the vessel can be viewed on HOWE MARINE SURVEYS' Picasa Web Album.&=bsp; I will soon be sending you a separate email invitation to view the photos. Just click on the HOWE MARINE SURVEYS logo to see the captioned photos.

<= class="MsoNormal">I have also attached your paid invoice. Thank yo= for your prompt payment at time of survey.

I have attached some=additional documents for your review and information. Please read the=Buyer Ltr first.

Please reply to this email to indicate that yo= have received it. Thank you.

To get Adobe Acrobat Reader=so you can read and print the attached documents (if any), go to this free w=b site <http://get.adobe.com/reader/> <http://get.adobe.com/reader/>

Regards,
