Subject: Aluminum Boats

I emailed vendor and asked his thoughts on repair of aluminum and he responded below

I also saw the following few things on internet

<http://www.aluminumrepair.com/boat-repairs/>

<https://www.youtube.com/watch?v=WvWYApUfiCI>

<https://www.youtube.com/watch?v=9moYO-WWhaQ>

Not sure if this changes your thoughts..

Hello again Richard
I also forgot to mention most police departments and fire departments throughout the United States do not use fiberglass boats

Good morning Richard

Almost all military contracts use aluminum or steel =orld wide, this alone should let you know the strength and maintenance =f aluminum.

A lot of east coast captains are used to FRP, and don't =now about aluminum. The Northwest has for years switched from =iberglass to aluminum for its durability. We have a passenger =oat on NEVIS that I can get you in touch with the captain if you like to talk to him about aluminum etc.

Regards

Subject: Re: Water =ransport boats

one of our boat captains mentioned to principal that he was concerned =bout aluminum boats due to difficulty in repairing dents, etc (as =ompared to fiber glass)

what are your thoughts?

thank you

Richard

Attached is our brochure of tour boats, this doesn't =nclude all our models.

A simple 30 passenger passenger boat would run 390-425 =epending on options etc
