Subject: Work update=Non Priority Items

Hi Everyone:

here is a brief description of the non priority items done today.=u>

- \* Installed 2 PoE injectors to the Rockus bridge and AP =t the shelter site
- \* Move Ruckus bridge and AP from the netgear router to t=e 3560 at the shelter

- \* Turn off Netgear switch.
- \* Unplugged old power brick from ups that was not in use= at the shelter.
- \* Reconfigure cisco ports (Gym/Shelter) where Rockus bri=ge are connected (from Access port to Trunk Port)
- \* Interconnected Choice switch with LSJ switch at the Gy=
- \* Accessed cabinet at Vessum Beach to verify fiber conne=tor (around 5PM)

With today changes I'm now able to monitor the switch at the gym=and I was able to route LSJ data vlan to the Rockus AP that points to 5 Pa=ms. Jermaine was able to test the WiFi connection and was able to ac=ess the internet via that AP. Also I verified what cable is needed at Vessum. It =99s a 1 meter, single mode simplex fiber cable ST to ST.

Attached is the changes to the preliminary report. Changes/additio=s are coded in red.

let me know if you get the cable on Wednesday so I can schedule the inst=llation of the cable at Vessum.
