Subject: hardware suggestion for students

Dear Mrs. deJongh,<=u>

This is the higher-end=MS Windows Tablet. The base model quote (similar to what I referred to last week) is forthcoming.

Mike

MH,

Please see that attached invoice from PCMALLGOV. You will notice that the cost per machine is \$998. After speaking with Damien it was determined that the MS Surface Pro 2 with the full version of Windows 8.1 was the best option for the loading of additional software such as MS OFFICE and other network configurations. I=92ve also included the spec sheet below for your knowledge and sharing.
