=ow, this is where it gets interesting.  Sotheby's catalogue illustrates = cartonnier (illustrated below)  which they described as "later"  that=came with the desk.   Does Mr. Epstein have the cartonnier? It's=obviously hard to say from this black and white photo, but stylistically, =he cartonnier could be from the 1760's.  If so, it was likely made at th= same time the lion's masks were put on the sides and would make the desk =ignificantly more valuable.
