I =as thinking before the 22nd...

We=have not agreed on a solution as yet. The piece of veneer for the =edge I was speaking of was for the CEO seat (R/H #2) that would extend =rom the aft side of the table lid to the fwd side of the phone door =id.

Th=s would provide us the "real estate" required to reposition =he switches and have them fit.

La=ry told me this morning that you are not happy if the switches and cup =olders are not centered inboard / outboard due to the ledge =odification.

I =m working on an idea right now with Jay - a stylish detail that we did =ast year on a Global Express that looked great.
