Subject: Online Cryptography class: final exam

Dear jeffrey epstein,

After six weeks we reached the end of Crypto I. The final exam is now posted on the course web site at

<https://crypto.stanford.edu/OnlineCrypto>

The final exam will remain open for the next three weeks after which students who completed the course work will receive a statement of accomplishment.

I hope everyone learned a lot during these 6 weeks. Good luck on the final exam and I look forward to seeing you at a future course!

Dan
