Hello great friend,,,,in Yemen over thirty percent of agricultural land and l=rge part of our water reserves..is planted with the cursed kat plant all th= Yemenites including our Yemenites brothers of Jakob ,,, we chew almost dai=y while our brothers only chew Friday night and Saturday ,,, I got fascinat=d with the idea of introducing it As a juice in Yemen,Arabia,,where kat is not allowed ,Europe ,especially u.k=

In few days will be in Egypt,I will investigate whether our concentrate pla=t now closed can produce it as concentrate,to be added when consumed with j=ice like lemon or other,(I E ,like VIMTO ,RED BULL)especially in bar and d=scos, and for taxi drivers,transport drivers..

The concentrate plant can be in Yemen or Ethiopia,which is also a big produc=r of kat,, How can we contact the guy who introduced it in west bank to exchange ideas=.. You will be part of it investing in this part of the world sir Sincerely.
Shaher
