Hi darling, how was your summer, almost thought i was going to see =ou in Rome but know such luck, any way how was the fresh fruit and meet of Italy, I'=e alway's been told there's nothing quite like it, that quarter Italian running thr=ugh me has alway's made me proud, well as a woman!!!!

Take a look at this, it' a beautiful beast, remind's me a little of you i= that respect.

So this is the great discovery.

Frank Stella was commissioned years ago by the city of Miami to make an o=tdoor sculpture. As the city ran out of funds the piece was not completed. Frank being Fra=k, just forgot about it. So it has been sitting in shipyard and after having spoken to him, I want=d you to see it first. It is for outdoors and hurricane proof, as it was demanded by you!  
=20 To find a piece of this calibre and unseen is, you must admit a find....=br />  
Call me and lets talk about it, I think its worth a phone call.

Lol
