Subject: Special Invitation from Mount =inai
Date: January 22, 2014 11:54:26 AM EST
To: [REDACTED]

I am writing to =ollow up on an invitation that was sent to Mr. Epstein for a very =pecial and intimate event taking place in Palm Beach at The Palm Beach =ountry Club on February 19th from 3 – 5 pm hosted by =ike Minikes and Joe Plumeri. Our President and CEO Dr. Ken Davis =ill lead a discussion with three of Mount Sinai's experts in the =ield of Personalized Therapy, Drs. Eric Schadt, Ross Cagan, and Daniel =abow, who are revolutionizing the way diseases are diagnosed and =reated.

I am including a =ink below to a very compelling article in last month's Esquire =llustrating what this work can mean for our patients. The =rticle, "Patient Zero," describes how Dr. Schadt's team =ith Mount Sinai colleagues – including Dr. Cagan and Dr. Labow =96 are pioneering an innovative approach to treatment for =tephanie Lee, an Iraq war widow facing terminal cancer. We will be =ucky to have Stephanie at the event so you will hear first-hand about =er experience.
