Has your organization closed or frozen, or considered those plan design changes for its defined benefit plan?

Closing or freezing a pension plan alters the future growth of the plan's benefits and therefore liabilities, but the obligation to pay promised benefits continues for years. As a result, sponsors must have a sound strategy for managing their closed or frozen plan's financial aspects over time to minimize economic impact on the organization, while providing full benefits for retirees.

On June 16th, Russell experts Martin Jaugietis, Jim Gannon, and Brian Frick will provide practical insights to help you assess the current status of your plan and discuss possible strategies to help you manage risk and volatility as you move toward your target end-game.

Speakers to include:

James Gannon,
Manager, Investment Strategy & Consulting, Russell Investments

Brian Frick,
Senior Client Executive, Russell Investments

Moderator:

Martin Jaugietis,
Senior Consultant, Russell Investments
