Thanks for thinking of me in Cambridge. I=d be happy to fly out next time you get together with Martin and the gang. I=m most happy to hear you're back in high society brilliantly.

Also, T=e Institute for Music & Brain Science is a 4942(j)3 private operating found=tion, not a 501(c)3: 4942(j)3's can fund their own research projects. We'd u=e some of the initial funds for a perception and ERP lab, so not all (of th= initial) would go to salary and, as usual, I would have a small army of st=dents staffing The Institute, a la the attached picture a sent you with a t=ank you note back in December. (There's already a number from my class aski=g to do some projects with me.) The salary would free me up to write some g=ants - e.g., my new pal at Universal Music has offered to send Britney Spea=s the Neonatal ICU project I sent the Florida Science Foundation in '09 (th=re's a custody issue surrounding her kids), since he is her publisher, but t=me has been prohibiting me from pursuing it.
