Subject: following up

SO, how to follow up on the weekend? My thoughts:

1. first, if you want to come to AZ in Feb for the human uniqueness event or part of it (Feb 18-22), let me know and I can help you make arrangements.

2. We need to get Martin and some others out to AZ.. and we need to start some interesting programs. I don't know where you want to go from here.. I understand that you want to make sure your support goes to interesting work and fun, and not other things.. I also understand that in order to keep the remarkable reservoir of goodwill I built up with the Origins Symposium, I need to make a 'hit' as far as the University is concerned.. i.e. bring in money to support this stuff.. just got \$100K gift, and have applied with the Ed. School for \$2.5M for a program to improve middle school science ed using origins.. I would like to explore with you what we can do that is creative to both free me up to work, and to allow origins to sponsor exciting stuff. Also.. to see if we can funnel money to Martin via ASU, which, as I said is entrepreneurial.. I would suggest \$5M for some combination of programming, staffing, and space to facilitate all this, with a clear mandate to run programs on exciting forefront topics including evolutionary dynamics, the physical basis of biology, the physics of information processing including quantum computing, and also outstanding questions in gravity.

thoughts?

Lawrence
