<[REDACTED]>, Darren Indyke <[REDACTED]>>

Jeffrey - as per your request I did the entire Master bedroom budget =rom scratch with new take offs.

- \* I specified as much as I could based on the exi=tng brands of plumbing and lighting equipment.
- \* I used all LSJ labor including Gary for the el=ctrician and Brian for the plumber – Glidden agreed to sign off on Gary=92s work, I have not got a professional to sign off for the plumbing as of=yet.
- \* Gensler has not reviewed the HVAC system I spe=ified with Dave Gott, but I'm confident that their specifications will n=t be much different.
- \* Gensler has not specified the roof yet and I a= not entirely sure theirs will be equivalent, the one specified in this bu=get is based on the Office Pavilion, which in my opinion was over designed=
- \* The paint finish is a simple in house job and =oes not account for a Pinto or designer look. No paint in the bedroom beca=se this requires some designer repairs.
- \* All stone floors and walls are Coral stone.
- \* Existing bedroom floor to remain but I have al=owed for refinishing.
- \* All lighting and switching in the Bedroom will=remain as is.
- \* I HAVE NO SHIPPING included in this budget, I =id not have time to run it all past Emad, which I will do next week.
