Sir,

Attached is the revised phone quote with line items from ETC. Steve estimated 30-45 days from date of signature and deposit before we would be up and running on LSJ. They anticipate 1-2 weeks to complete the install and configuration for LSJ and FTC. The bottom of each quote includes options that were requested in the past. These items are for informational purposes only and are not required. I have not tried negotiating this price as Emad was working on that aspect of this project with the ValComm guys.

Please let me know how we should proceed.
