Dear =effrey,

You will find attached some 3D sketches of the =itchen/screening room/master suite area.

Again they are only =ketches but able, I hope, to illustrate in a constructive way the =ast talk we had on the subject.

What I did try was to anchor the =ain terrace and the succession of tiers with the staircase and to =rovide this area with a feeling of uniformity. I also privileged the =iew from and around the staircase leading to the master suite. =br>

I would also make sure you understand that I really appreciate =he opportunity you gave me to be working on this project, trying my =est, sometimes with obviously poor results, to translate and to =ntegrate your vision with what I think would be the best for the =inal design.

On a more personal note I would like also to let =ou know how much I sincerely liked meeting you and, whether we =ecide or not to go on with the project, I would like, nevertheless, =o thank you for the friendly and sometime rather straightforward way =ou opened the door of Little Saint James.

With the new =ear around the corner, it's a good time to make wishes and =o present you with my very best ones for 2011.

As far as I am =oncerned, I do wish that we will find the right way to communicate =nd to bring this project on the right track.

With my very best regards.
Christian.
