## **MEDICAL DISCLAIMER**

It is understood that medicine is an ever-changing science. As new research and clinical experience broaden mankind's knowledge, changes in treatment and drug therapy are required. The authors and the publisher of this "HLX8 Information Package" have checked with sources believed to be reliable in their efforts to provide information that is complete and generally in accord with the standards accepted at the time of publication. However, in view of the possibility of human error or changes in the medical sciences, neither the authors nor the publisher nor any other party who has been involved in the preparation or publication of this work warrants that the information contained herein is in every respect accurate or complete, and they disclaim all responsibility for any errors or omissions or for the results obtained from use of the information contained in the "HLX8 Information Package".

Information contained in the "HLX8 Information Package" is not a substitute for professional medical advice, health care services or a medical exam. Nothing contained therein is to be interpreted as a general or specific recommendation for a specific treatment plan, product, exercise regimen or course of action. Consult your doctor before using the HLX8. Only your doctor or a qualified medical professional can provide you with advice or recommendations for an individual ailment, treatment or problem. Nebion LLC, Nebion employees and associates make no claims or advice that should ever supersede instructions given by your doctor or qualified medical professional.

The statements in the "HLX8 Information Package" have not been evaluated by the Food and Drug Administration. Nebion does not claim that the HLX8 will diagnose, treat, cure or prevent any disease. The "HLX8 Information Package" is only reporting what users have told Nebion employees they have experienced with their use of the HLX8.

Nebion and its employees wish to comply with all laws and authorities including the FDA and AMA. Please report any violations immediately to Nebion LLC so that we may make the changes necessary to comply with the law.

We do not recommend the self-management of health problems. Information contained in the "HLX8 Information Package" is not exhaustive and does not cover all diseases, ailments, physical conditions or their treatment. Should you have any healthcare-related questions, please call or see your physician or other healthcare provider promptly. You should never disregard medical advice or delay in seeking it because of something you have read in the "HLX8 Information Package" or have been told by an employee or associate of Nebion LLC.

2008 Nebion LLC

## **IMPORTANT NOTICE**

## **PREFACE**

The HLX8 is a quantum leap in technology for the treatment of many medical ailments afflicting people all over the world. The design of the HLX8 came from investigation into an entirely new theory pertaining to the structure of matter and what holds not only the universe together but also each molecule within the human body. By utilizing this knowledge the HLX8 was designed to optimize the function of each cell within the human body whether the user is very ill or extremely healthy.

The HLX8 utilizes a totally non-invasive field of structured ions to influence individual cells by manipulating the invisible electromagnetic fields which surround each cell in the body. By controlling these invisible fields we can control the visible cells and optimize life functions throughout the body. This theory is being validated every day by users of the HLX8 and the results they are getting. The HLX8 emits no harmful radiation and there have been no side effects with proper use of the unit on its own. There are no pills to take or any additional treatment required for the full benefits of the HLX8 to be realized by each user. The HLX8 may be used along with other treatments that you wish to use as long as you use the HLX8 as directed.

In this information package you will read about what the HLX8 is and the story behind its creation. You will learn what ailments it can treat and how to use the machine. You will read about the key people involved with the project, what the HLX8 has done for them as well as what they have seen it do for others. There are some testimonials provided by additional users of the HLX8 explaining what it has done for them personally. Then finally there are some frequently asked questions about the HLX8.

As of May 1, 2008 the prototype version of the HLX8 is available for purchase in limited quantities. In July 2008 the production model of the HLX8 will be available for purchase and prototype models of the HLX8 can be exchanged for the production model at that time if so desired. The current selling price of the HLX8 is \$10,000 U.S. and the results are guaranteed in writing by Nebion LLC. If you use the HLX8 as directed for 60 days and you have not achieved positive results you may return the HLX8 for a full refund minus a 10% handling charge. We accept VISA, MasterCard, American Express, and Discover for payment of the HLX8. Currently we are able to ship the HLX8 within one week of your order and there is a one year guarantee on manufacturer's defects and reliable operation of the unit for personal use.

This package is pre-release information that will also be included on our website when it goes online this summer. We do not have a website up currently as demand would exceed our current HLX8 supply. We can only inform a select group of people in a controlled way to view this information before our actual HLX8 release date this summer.

We hope the information in this package answers any questions you may have and leads you to make an informed decision regarding the purchase of an HLX8. Our goal at Nebion is to help the people of the world live a longer and healthier life free of disease and pain. We hope that we can help you.

**Many thanks from our team at Nebion LLC for your interest in the HLX8**

## **A Request for Understanding**

We are pleased that you are taking time to review the contents of this information package. At present our endeavor has made great strides and success in the fight against cancer and various other ailments through the efforts of a select group of people working very hard to push this project forward.

We hope that your questions are answered within this information package. If they are not, please only contact us with questions if you are serious about purchasing an HLX8 as current team members working on this project have a limited amount of time available to answer questions. The time our team takes to correspond with you is time they will not have to help others who are in desperate battles to save their own lives or the lives of a loved one with the HLX8.

If you have reviewed the contents of this information package carefully and you are ready to move forward in regards to the purchase of an HLX8 then you are more than welcome to contact us at:

You will then be contacted with answers to your questions regarding the HLX8 via phone or email as soon as possible.

Thank you for your understanding in this matter.

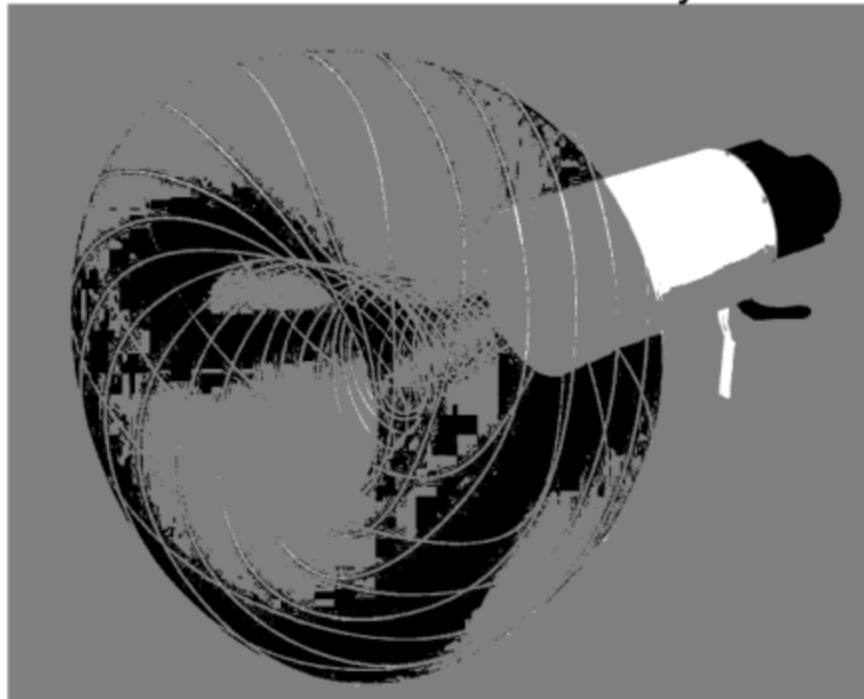

## **WHAT IS THE HLX8?**

**Photo of Prototype HLX8 currently available**

The HLX8 is breakthrough technology for the treatment of many different ailments that afflict both humans and animals. Although the HLX8 design incorporates magnets it is not a magnetic therapy device. The HLX8 incorporates a unique magnetic array that spins at high rotational speeds to produce a tornado like field of structured ions.

**This is an illustration of the field emitted by the HLX8**

This field of ions then affects the low level electromagnetic charges that are around each cell in both humans and animals. When these charges around each

cell are properly polarized the cells are forced into the optimum position and alignment for health and life. Unhealthy or cancerous cells cannot exist in this alignment and therefore die.

**This illustration shows the regular structure of normal cells versus the irregular structure of cancer cells.**

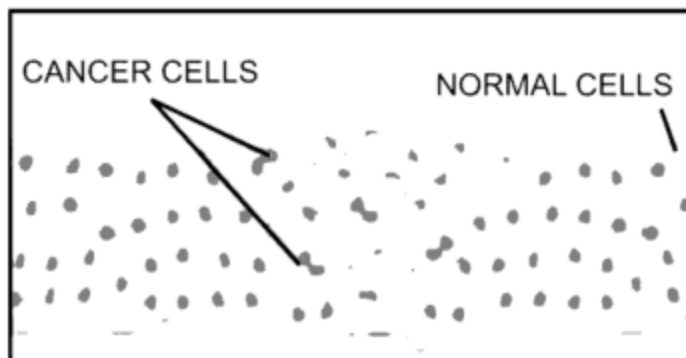

Image from <http://www.cancerhelp.org.uk>

Healthy cells are given even more energy and cells that have a bad structure die. As the body is exposed to the field emitted from the HLX8 good cells become even stronger and healthier whereas bad cells die. These dead cells are then eliminated from the body by the natural bodily functions that handle dead cells. Someone with cancer must use the HLX8 at a rate that matches what their normal bodily functions can handle as the dead cancer cells are released in to their bloodstream. For the typical person with cancer they should use the HLX8 for a maximum of one hour per day to avoid overloading their liver and kidneys with dead cancer cells that are being removed from the body. So the HLX8 kills cancer cells much like radiation but instead of also killing healthy cells it actually makes healthy cells even stronger.

As a body is exposed to the field emitted from the HLX8 it becomes healthier every day. Good cells thrive and bad cells die leading to a much healthier life for the user of the HLX8. Used over a period of months even grey hair is reversed in the field of the HLX8.

Use of the HLX8 will greatly help or eliminate the effects of many ailments afflicting people. This includes cancer, fibromyalgia, arthritis, avascular necrosis, back pain, thoracic outlet syndrome, headaches, and many other aches, pains and ailments.

Due to the way the HLX8 works even healthy people can use the machine and benefit from it. It greatly enhances endurance and optimum health and can even prevent the growth of unhealthy cells, so it can be used as a preventative measure also.

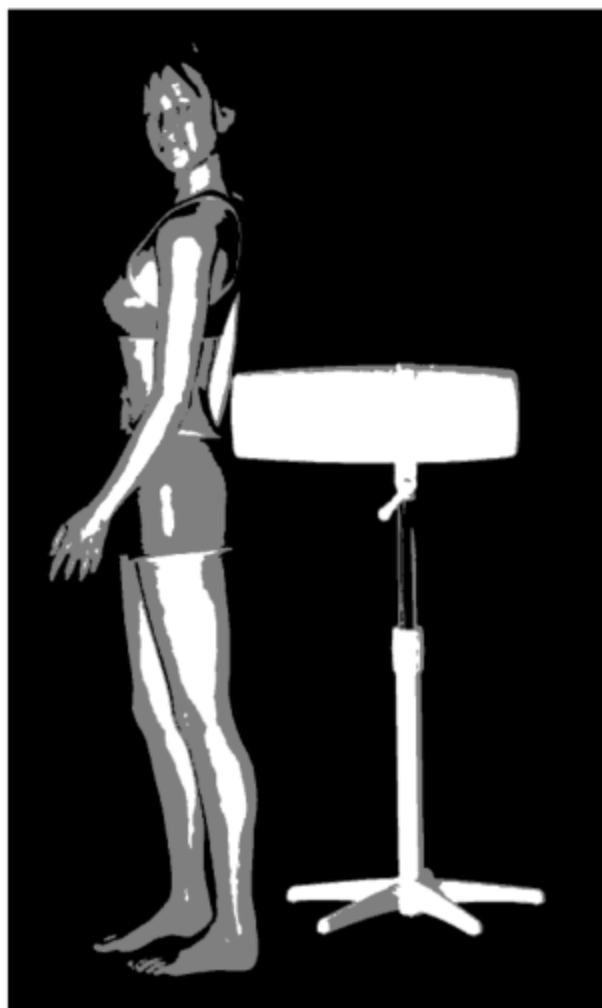

There have been no negative side effects from any of these units when used properly and even if used improperly the side effects are no more severe than drinking a little too much coffee. These minor side effects then will completely subside within ten minutes of temporarily discontinuing use of the HLX8.

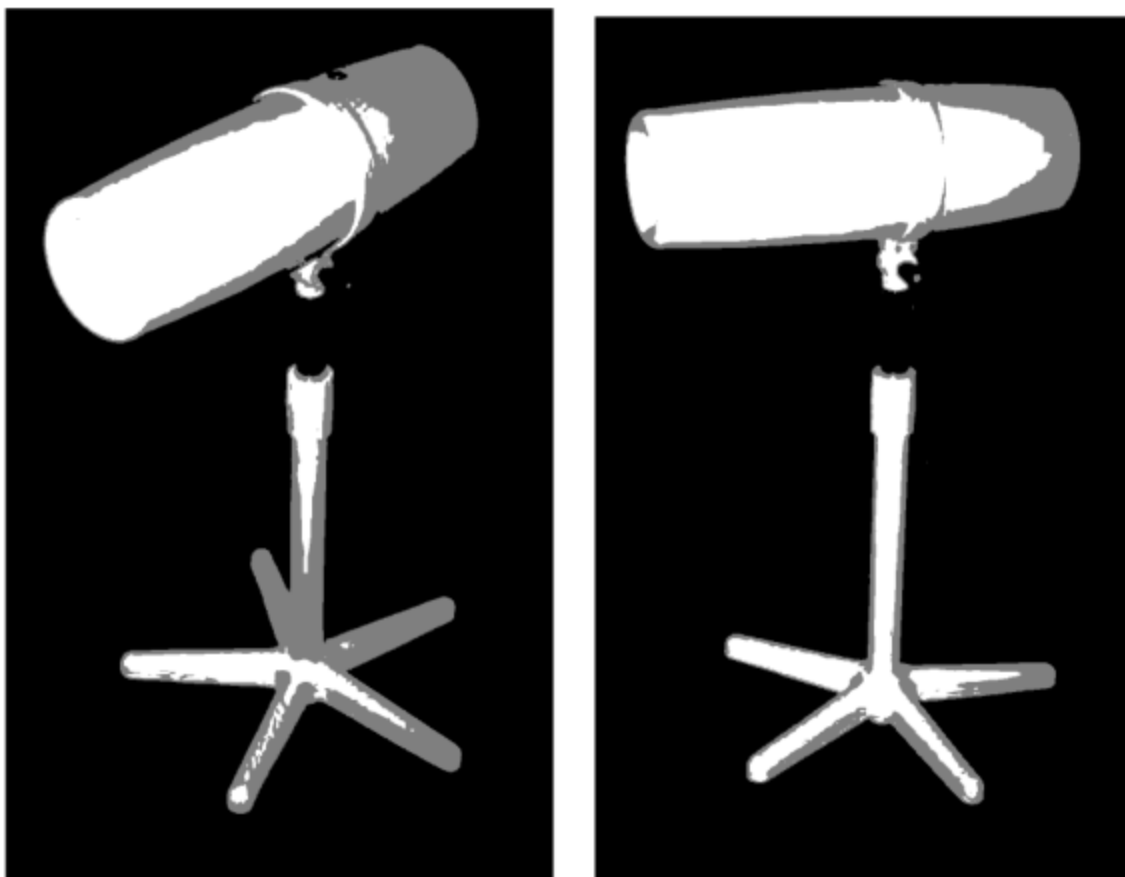

In summation the HLX8 is a quantum leap in technology based on an entirely new theory of the basic structure of matter. This theory is validated by the very things on which the HLX8 works on and what it does not work on. There will undoubtedly be further developments based on this technology and understanding that will also improve the quality of life for everyone on this planet.

The Prototype version of the HLX8 that is presently available utilizes exactly the same magnetic array as the very first one produced in December of 2006 and as the production models that will be available in July of 2008. This assures results consistent with those already obtained over the last year and a half.

### **Rendering of the Production Model of the HLX8**

### Photos of the Production Model of the HLX8 available July 2008

Production models of the HLX8 will be produced in operational voltages and frequencies to match the different electrical power systems for the various countries that they are to be sold in. Component parts for the HLX8 will initially be supplied from different suppliers around the globe with final assembly taking place in the United States. The magnetic array will only be produced in the United States at our in-house facilities in the Los Angeles area both for quality control and secrecy reasons. Later the final assembly of the HLX8 may be located in various locations around the world to minimize shipping and production costs as well as providing product support on a global basis.

## **THE STORY BEHIND THE HLX8**

My name is David LaPoint and I am a 51 year old engineer/inventor/physicist from Huntington Beach, California. I have over 30 years of experience designing and building very complex high tech machines and processes for industry. Some of these have been computer controlled with hundreds of inputs and outputs monitored and controlled in real time. I have patents on some of these machines and processes dating back to the 1970's. That being said I am amazed at some of the results from discoveries I made in December 2006. Much of it is flat out unbelievable to most people. What you are about to read is the truth. I will and have staked my life and entire life savings on it.

In December of 2006 I was working on controlling the flow of ions with a very unique array of magnets. I was doing this because of an understanding of the structure of matter that is entirely different from other physicists. This understanding of the structure of matter led to several breakthroughs in a very short period of time in late 2006. One of the most outstanding developments led to the completion of a machine on December 25, 2006. Because of this I initially called the machine the "Christmas Machine". We have since renamed this machine the HLX8 for marketing purposes. This machine was designed and built to heal the human body from outside using a structured tornado-like field of ions. This field of ions was then going to cause the cells within the human body to align to the optimum condition for health, life and treatment of many diseases. More specifically I designed this machine to eliminate cancer within the human body totally non-invasively. Well, almost unbelievably this machine has produced results that exceeded even my expectations.

As soon as I finished the first HLX8 machine I began using it on myself. Although I had no known cancer, I did have back problems that had bothered me for years. I also suffered from thoracic outlet syndrome (TOS) which would have my right arm and hand numb after using the computer for as little as one hour. This condition is caused when the main nerve bundle that runs down your arm is pinched by inflamed muscles and tendons. I probably acquired TOS from years of using computer workstations for designing machines in advance 3d CAD programs for many hours per day over 20 years. My doctors had been totally unsuccessful in giving me any significant relief from TOS over the years. This is typical for patients with TOS. Not much relief can be obtained without eliminating the initial activity that brought on TOS. But after using the HLX8 for two hours a day for four days all symptoms of TOS were gone along with all my back problems. I also experienced a great increase in energy and endurance. I had not felt so good in over 20 years. I knew I had something big.

I told a friend of mine about the machine and my results. He began to use the machine for his back problems that had plagued him for years. His name is Kyle and you can read his story along with others we have in our testimonials. Kyle also experienced dramatic results that left him feeling better than he had in years. Kyle came on board working with me to help get this technology out to the world in January 2007.

Over the next several months the HLX8 continued to amaze people with the results they were getting. On October 1, 2007 I was introduced to Emerson Timmins Head of Physics at the University of Hawaii, Maui (MMC). After talking to Emerson for a while I agreed to send him a HLX8 for testing purposes. Emerson also had some amazing results on both himself and others. You can read more about his account in our testimonials also. Emerson came on board with the project October 9, 2007 and is now more excited about it than ever.

Emerson introduced me to Maria Seiler who suffered from avascular necrosis of the talus bone in her ankle. Maria suffered a great deal of pain and could barely put any weight on that foot. No one over the age of forty ever really recovers from this injury – normally resulting in foot amputation. It is usually treated by joint replacement though this procedure is not always successful or long lasting. Well, as of today Maria has made an amazing turnaround using the HLX8 and is able to work without pain on her feet all day in her part-time job as an x-ray tech at a major orthopedic center that specializes in general, sports and joint replacement orthopaedics. Maria became involved in the project in about December of 2007 and works advising people on proper treatment with the HLX8 for various ailments. Maria also treated her friend Sue Bogle who had stage IV (the most severe stage) bone cancer with the HLX8. Sue was our first cancer patient and is now cancer free by using the HLX8. You can also read more about Sue under the testimonials. Since Sue we have had other fantastic results with cancer patients using the HLX8. The machine worked on cancer just as I had intended it to. My theories were correct. This is proven by the ailments the machine works on and what it does not work on.

ON October 23, 2007 I was introduced to Fred Joyal who is the CEO and spokesman for 1-800-DENTIST [www.1800dentist.com](http://www.1800dentist.com) and Smileworks anti-aging centre [www.smileworks.com](http://www.smileworks.com). I showed Fred an HLX8 and we tried it on a partner of his named Blake who had back problems. Blake also had great results from using the HLX8. Fred and I formed a California LLC. We have initially named the company Nebion LLC, but this must not be confused with another startup in Switzerland with a similar name that makes software for biological modeling [www.nebion.com](http://www.nebion.com). The fact that the Swiss company talks about healthy cells versus unhealthy cells could cause many people confusion if they were looking for information on our company so we are exploring other names before we go public.

With Fred's financial and business support, further HLX8 machines were built and given to people with various ailments for testing purposes. Despite amazing results, so far the HLX8 does not appear to be effective in combating certain types of acute viral or bacterial infections.

Here is a partial list of what that the HLX8 has been reported to work on so far:

Avascular necrosis

Fibromyalgia

Carpal tunnel syndrome

Sports injuries and sprains

Breast cancer

Lung cancer

Bone cancer

Pancreatic cancer

Ruptured discs

Arthritis

Rheumatoid arthritis

Thoracic outlet syndrome

Also, enhanced athletic performance, endurance, balance and flexibility has been achieved by almost all those using the HLX8. It would be expected that all sports teams in the future will have an HLX8 in the locker room because of the accelerated healing properties and increased athletic performance experienced by its use.

Then there is one more very major aspect to using the HLX8:

Reverse aging. Those who have used the HLX8 over a period of greater than six months have obvious indications of reverse aging. I myself have witnessed a dramatic change in the condition of my body (both inside and out) for the better. My hair has grown darker and shinier including the reversal of my grey hair. My skin is now much softer and smoother and most of the age spots I had have disappeared. My strength and endurance is better than when I was 25. At the age of 51 I do not have one thing that I could say bothers me physically. I go to the gym at least 4 times a week and I never get sore - even with the very intense workouts I put myself through. I can lift more weight than I ever could in my life and my cardiovascular endurance is greater than ever. In addition, my driving distance in Golf is up an average of 30 yards.

This reverse aging has been experienced by all those who have used the HLX8 over six months and it just keeps getting better as time goes by. Some results have occurred with those using the HLX8 for as little as 15 minutes per day and some have seen dramatic reverse aging benefits in as little as four weeks. This reverse aging effect will be the largest driver for the sales of the HLX8 over time.

## **AILMENTS TREATED WITH THE HLX8**

Below is a list of all the ailments that users have reported the HLX8 has successfully treated. If you have an ailment that is not on the list you may want to try the HLX8 and see if it works for you. Please let us know if you successfully treat a medical condition not listed below so that we can update our list.

Nebion LLC does not claim that you will be successfully treated of the following. We are merely reporting what users have stated.

- Abdominal cramps and upset stomach
- Abdominal Strain - Pain in the Rectus Abdominal Muscle
- Abductor Pain - Pain on Inside of Thigh
- Achilles Tendonitis - Inflammation of the Achilles tendon
- Ankle Injuries
- Ankle Pain - Arthritis
- Anxiety - Stressful States
- Arm Injuries
- Arthritis
- Avascular necrosis
- Back Pain - Arthritis - 'Discs' -
- Bruised Heel
- Calf Strain
- Carpal Tunnel Syndrome - Pain and Tingling in the Fingers
- Cartilages
- Cancer
- Charley horse

- Cramp
- Fibromyalgia
- Fingers, Hand Pain - Arthritis
- Foot Injuries
- Foot Pain - Arthritis
- Gallbladder Colic - Biliary Colic
- Golfers Elbow
- Groin Injuries
- Hamstrings
- Hand, Fingers Pain - Arthritis
- Hangover
- Headache (Migraine)
- Hip Injuries
- Hip Pain - Arthritis
- Inflammation of Biceps Tendon - Biceps Tendonitis
- Inflammation of Forearm Tendons - Tenosynovitis
- Inflammation of the Achilles tendon - Achilles Tendonitis
- Insomnia
- Irritable Bladder and Prostate Problems
- Knee Injury
- Knee Pain - Arthritis
- Jaw Pain - Arthritis -TMJ
- Laryngitis - Sore Throat
- Lateral Ligament Strain - Pain on the Outer Side of the Knee Joint

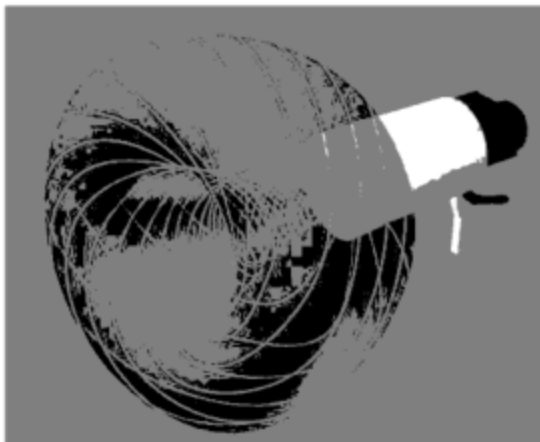

- Ligaments
- Lower Leg Injuries
- Lumber Spine
- Medial Ligament Sprain - Sprain of the Ligament on the Inner Side of Knee
- Metatarsalgia - Pain on Ball of Foot
- Migraine
- Morning Sickness
- Nausea
- Neck Injuries
- Neck Pain - Arthritis - Stiffness
- Pain and Tingling in the Fingers and Thumb - Carpal Tunnel Syndrome
- Painful Arc -Specific Form of Shoulder Pain
- Painful Periods - Dysmenorrhoea - P.M.S.
- Pain in the Rectus Abdominal Muscle - Abdominal Strain
- Pain on Ball of Foot - Metatarsalgia
- Pain on Bunion Joint of Foot - Hallux Valgus
- Pain on Inside of Thigh - Abductor Pain
- Pain on the Outer Side of the Knee Joint - Lateral Ligament Strain
- P.M.S. - Painful Periods - Dysmenorrhoea
- Prostate and Irritable Bladder Problems
- Repetitive Strain Injuries
- Rib Injuries
- Sciatica
- Shingles

- Shin Soreness
- Shoulder Joint
- Shoulder Pain - Frozen - Arthritis - Painful Arc
- Sinusitis
- Sore Throat - Laryngitis
- Spinal Injuries
- Spondylosis - Back Pain - Arthritis - 'Discs'
- Sprained Thumb and Fingers
- Sprain of the Ligament on the Inner Side of Knee - Medial Ligament Sprain
- Sterno-Clavicular Pain
- Stiffness - Arthritis - Neck Pain
- Stitch
- Stressful States - Anxiety
- Stroke Recovery
- Tennis Elbow - Arthritis
- Tenosynovitis - Inflammation of Forearm Tendons
- Thigh injuries
- Thoracic Outlet syndrome
- Tingling and Pain in the Fingers and Thumb - Carpal Tunnel Syndrome
- TMJ - Jaw Pain - Arthritis
- Toothache
- Trunk Injuries
- Wrist Injuries
- Wrist Pain

## **SUGGESTED POSITIONING OF THE HLX8**

The photos on the next four pages show some of the possible positions that the HLX8 can be used in. In general, the closer the head of the HLX8 is to the area treated the better and faster the results. As you can see in the illustration below, the strength of the field of ions is more intense and focused closer to the mouth of the HLX8 with the strongest part of the field being inside the HLX8.

If you can, you want to place the area to be treated inside the HLX8 as shown in photos I and J on the following pages. These two photos (I & J) show how to use the HLX8 for arthritis or other injuries in the hand or wrist. A foot problem would be treated as shown in photos S and T.

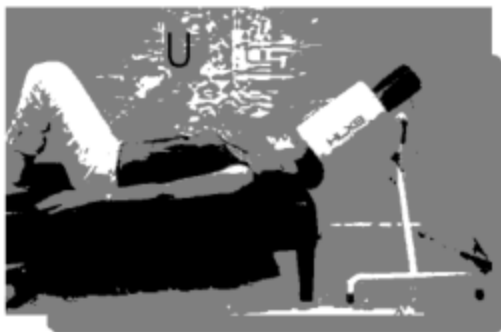

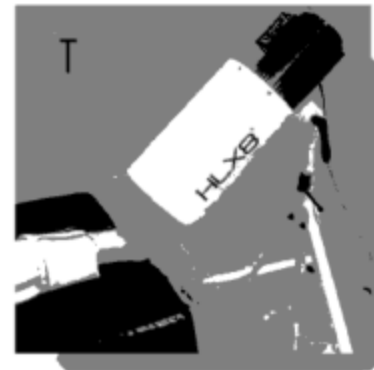

You can see that the closer the head of the HLX8 is to the area of concern the better. There is no problem with your body actually touching the HLX8.

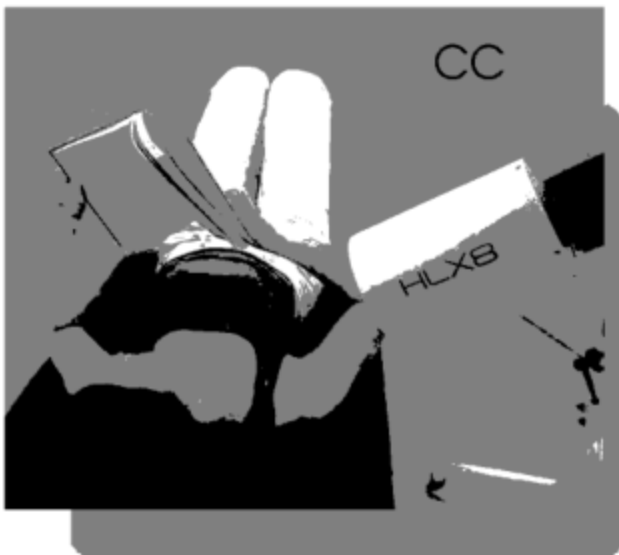

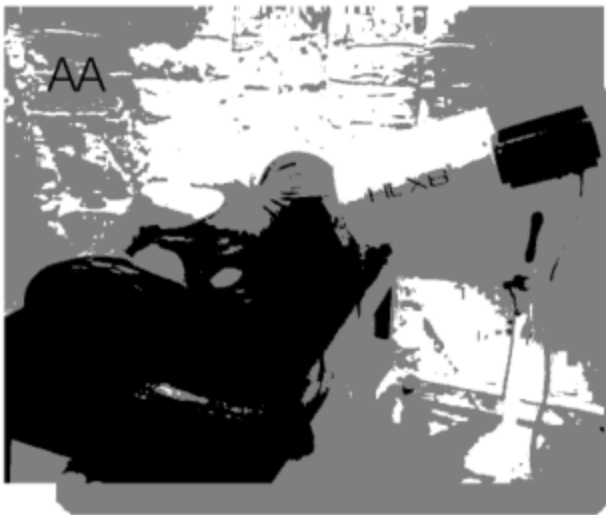

Sometimes there are several positions that will work just as well for treatment of an ailment. A headache can be treated by using the HLX8 as shown in photos A, B, U or V with equal results in many cases. Please observe the photos on the following four pages for some suggested positioning of the HLX8 to get ideas on how you might want to use it for your particular problem.

As you can see in some of the photos, you can use the HLX8 while reading, watching television, working on a computer, or any other activity that will allow you to remain in the field emitted from the unit. There is also no need to remove clothing whilst using the HLX8. It is better to remove heavy jewelry or clothing with a lot of metallic content as that might hamper the effectiveness of the ionic field the machine emits.

## **BIOGRAPHY FOR DAVE LAPOINT** **INVENTOR OF THE HLX8**

Dave LaPoint has been developing new products and advanced processes for various industries for over 30 years.

He began working with machines when he was ten years old at his father Philip's manufacturing company that produced small consumer products. At his father's company Dave would file, sand and inspect small metal parts that he would then assemble into the finished item. By the age of 21 Dave had obtained his first patent and was skilled in many different forms of machining, welding and production processes.

When computer aided drafting started to become available Dave was one of the first to embrace this technology. He now uses 3d cad to completely develop new products on his advanced computer system before they ever exist in the real world.

One of the more recent projects that Dave was responsible for was the development of the process and equipment for applying polysiloxane hardcoats in clean room conditions to various substrates. Dave obtained worldwide patents on this technology that produces a protective surface superior in chemical and abrasion resistance to other coatings used previously for many applications. The equipment that was designed by Dave for this process was completely contained within a standard 40 foot offshore shipping container that allows for the equipment to be shipped to a remote location, the power connected and production to begin within days of arrival. This unit was computer controlled and remotely accessible over the internet. This allowed for remote monitoring and control of the process and lessened the need for technical personal at the equipment location.

Dave has always studied and kept up on the latest technology and integrated it into products and manufacturing processes when it was appropriate.

This path led to the development of the HLX8 in December of 2006. Since that time Dave has fully devoted his time to researching and further developing this amazing new technology.

## **BIOGRAPHY FOR FRED JOYAL** **CEO, FUTUREDONTICS, INC.**

Fred Joyal has worked in marketing and advertising for 25 years. He co-founded the most successful dental referral service in the country, 1-800-DENTIST®, which operates in Los Angeles with 250 employees and processes over 1 million referrals each year. The company uses both a 24 hour phone center and a website to assist consumers in finding an appropriate dentist.

Fred also created Smileworks Anti-Aging Centers, a unique concept combining dental practices with dermatology centers. The first of these opened in Redondo Beach, CA, in June of 2007, and will be continued nationwide as a licensed practice format.

Fred's organizational skills and experience in marketing, management, advertising and design will be essential in creating an effective communication and distribution organization for the HLX8 worldwide.

**EMERSON TIMMINS – HEAD OF THE PHYSICS**  
**DEPARTMENT, UNIVERSITY OF HAWAII, MAUI (MCC)**

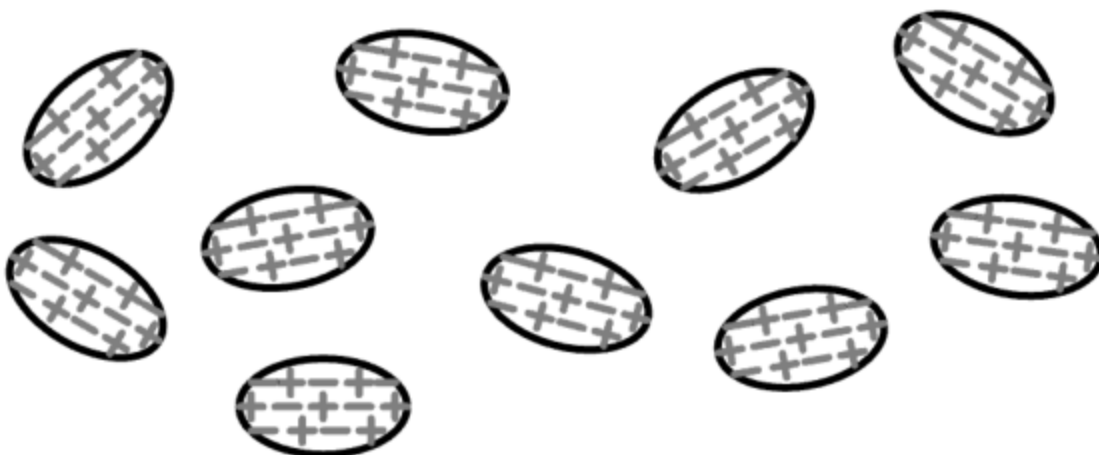

I am the head of the physics department at the University Of Hawaii, Maui (MCC) and as such I get a plethora of self-proclaimed scientists asking me to discuss their new "breakthrough". I have very little time for this sort of thing. Then, a machine by the name of the HLX8 was brought to my attention. I have been scientifically investigating the seemingly unbelievable benefits of the HLX8 since. What we have unraveled to date have been some astonishing results.

What I found on a scientific plane is that due to its configuration, it creates an intense internal magnetic field that induces a force that will cause free ions to condense and accelerate uniformly away from the machine and that these ions will have an intrinsic rotation about their central axis configuration.

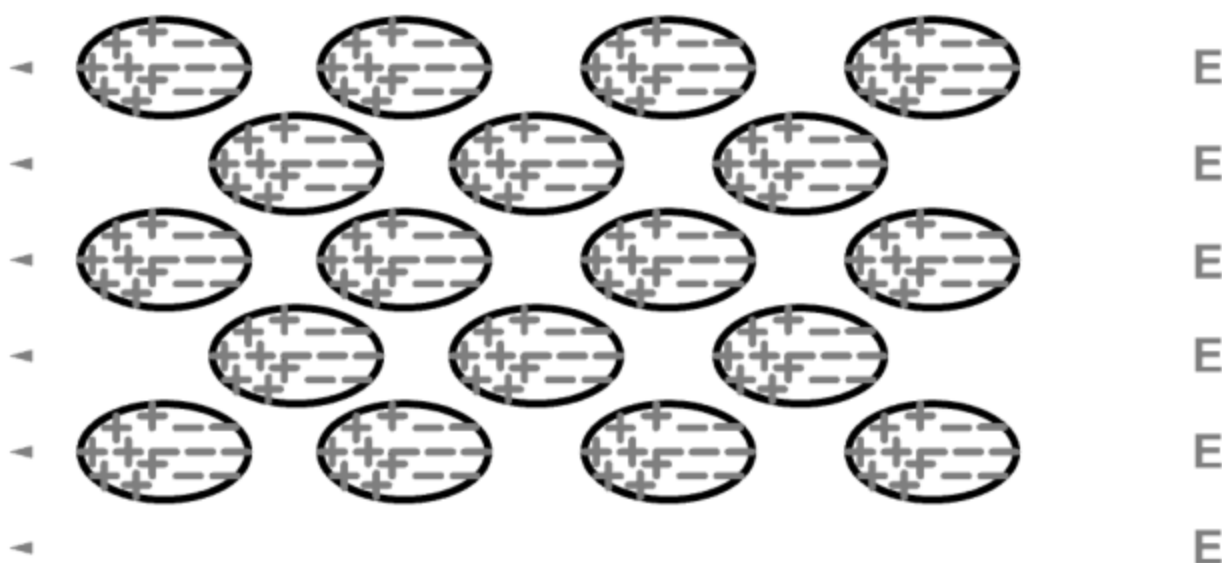

There is no substantial magnetic field outside of the machine. There is also no measurable radiation produced in any part of the device. I also found that non-magnetic substances (US Quarters) experienced a force when they were placed inside the center of the device that caused a lift (2mm or so) against gravity. The coins also increased in temperature by roughly 10 degrees Fahrenheit.

The machine was said to relieve the symptoms caused by: arthritis, muscle aches, cancer, poor blood circulation, and fibromyalgia. I am not a medical doctor, my precise field of study is experimental condensed matter physics. That said, my theory thus far is that the random free ions in air are being forced to become highly-ordered ions that are electronically polarizing the blood cells (each cell gets passed by the ionized field which forces positive and negative poles).

## Human Cells without an Electric Field.

## Human Cells with an Electric Field.

This polarization promotes the alignment with each nearest cell and the excess ions provided by the machine force the polarized cells to move. All cells will be forced into order. This highly ordered state assists the body in recognizing the cancerous cells and attacks them. Also, during the cell duplication phase of cancer growth in which cancer cells form an hourglass shape, the electric field stays on the perimeter of the cell (based on the electric field laws by Michael Faraday) and magnifies at the center of the dividing cells. This prematurely divides the cells and destroys them. The following link contains independent work done in Israel that supports this idea. This article is written by Katherine Bourzac MIT Technology Review Thu, 09 Aug 2007.

<http://www.technologyreview.com/Biotech/19195/page1/>

Blood tests such as C.E.A. on cancer patients using the HLX8 show an increase in the number of dead cancer cells in the body. This is due to the cancer dying from the field emitted by the HLX8. If the HLX8 is used too many hours per day the cancer in the body is killed too fast and this can potentially overload liver with dead cancer cells to be processed for elimination from the body. This could lead to a toxic situation in the liver and possibly cause nausea due to greatly overusing the HLX8. Simply reducing the amount of time that the HLX8 is used each day should eliminate this nausea side effect. Cancer needs to be killed at a rate that the liver can handle and no faster. This is usually no more than one hour per day with cancer patients.

My personal results:

- A large increase in energy, an increase in flexibility (I can now touch my toes), a reduction in recovery time from Lactic acid build up in muscles due to exercise or strain, the removal of a ½ golf ball sized callus on the top of my right foot, a thickening of my hair that was thinning on the top of my head, about a 2-fold increase in nail growth, a substantial reduction in the pain from a disc injury to my lower back dating back to 1995, and a softening of my skin.

I have witnessed:

- ❑ Susan, Delray FL: Diagnosed with stage 4 bone cancer. Sue was not able to move without extreme pain from fractures in her spine caused from bone deterioration and was too weak to walk. After two weeks of using the machine, Susan has since stopped taking her pain medicine and is sleeping through the night, walking, driving, eating out at restaurants and has regained her skin tone to its normal pinkish state. One month later, her doctors claim that they cannot find her cancer.
- ❑ Maria, Delray FL: a woman in her early 60s who shattered her talus bone and was unable to walk due to bone deterioration and swelling. Within 3 weeks she was able to spend the entire day walking on it without any support or pain. Maria is now able to ride a bike and can put all of her weight on her bad foot while on her tiptoes and is back working full time. She also noticed an increase in energy, a softening of the skin and claims her liver spots on her hands are 75% diminished.
- ❑ Lisa Torres, a young woman in her early thirties, has/had arthritis that was painful enough to make it nearly impossible to cut bread. She used the machine in front of me for 15 minutes and has been pain free for the last 5 months.
- ❑ Kathy Johnson diagnosed with fibromyalgia, who was unable to move her neck +/- 10 degrees and had trouble sleeping, used the machine for 20 minutes and instantly gained normal full range of motion.
- ❑ Eddie, Maui HI: suffered from long term lower back pain to an extent that he was forced to roll out of bed onto the floor in order to slowly rise in the morning. He spent one hour under the machine, woke the next morning and sat up for the first time he was able to remember.

- Jeff, Oahu HI, Diagnosed with small cell lung cancer and that had metastasized to the brain. Within six weeks, his doctors could not find the cancer.

There are multiple cases of the above mentioned and others unrelated, however, for brevity, I have simplified the list to these standard cases. Also note that C.E.A. levels in the cancer patients above have shown an initial increase in dead cancer cells as well as nausea until they reduced the time spent under the machine. Research needs to be done to explore the myriad of potential healing properties.

Sincerely, Emerson Timmins

## **MARIA SEILER, ARRT- RADIOLOGICAL TECHNOLOGIST**

### **MEDICAL TRAINING:**

I RECEIVED MY ARRT CERTIFICATE IN 1965 FROM THE AMERICAN COLLEGE OF RADIOLOGY AND THE AMERICAN SOCIETY OF RADIOLOGIC TECHNOLOGISTS.

### **WORK EXPERIENCE:**

PRIVATE RADIOLOGIST OFFICE WITH REGINALD HALL JOHNSON, MD.

RADIOLOGIST. DIAGNOSTIC UNIT WITH RADIATION THERAPY, 5 YEARS.

DIAGNOSTIC AND EMERGENCY ROOM EXPERIENCE, 2 YEARS.

ORTHOPEDIC X-RAY TECHNOLOGIST, 20 YEARS. ALL ASPECTS OF ORTHOPEDICS INCLUDING JOINT REPLACEMENT.

MEDICAL REPRESENTATIVE FOR PHARMANEX NUTRITIONAL SUPPLEMENTS. COMPLETED CERTIFICATION STUDIES.

### **TESTIMONIAL FOR HLX8 DEVICE:**

BEING FULLY AWARE THAT THIS DEVICE IS NOT FDA APPROVED AND THAT PATIENTS USE IT AT THEIR OWN RISK, I CAN RELATE WHAT I HAVE SEEN IN MY PERSONAL LIFE AND THE RESULTS OF ITS USAGE.

IT SEEMS MOST EFFECTIVE WITH OSTEOARTHRITIC CONDITIONS. PATIENTS WITH BASAL JOINT ARTHRITIC CONDITIONS SEEM TO GET RELIEF FOR SEVERAL DAYS AFTER A HALF HOUR TREATMENT. ROTATOR CUFF INFLAMMATION IS USUALLY COMPLETELY RELIEVED IN THREE TO FOUR, HALF HOUR TREATMENTS.

PATIENTS HAVE TOLD US THAT THEY HAVE EXPERIENCED PAIN RELIEF FROM MULTIPLE CONDITIONS AND THAT THEY HAVE INCREASED ENERGY LEVELS.

AT THIS POINT IN TIME IT SEEMS WORTHY OF MUCH RESEARCH, ESPECIALLY IN THE CANCER ARENA AS SOME PATIENTS INDICATE THAT CAT AND PET SCANS DONE AFTER USING THE DEVICE FOR 6 WEEKS OR MORE HAVE HAD

NEGATIVE SCANS. TUMORS SEEM TO DISAPPEAR, YET BLOOD WORK LEVELS IN CEA, SUV AND PSA COUNTS SEEM TO RISE EVEN THOUGH THE PATIENTS FEEL MUCH BETTER. THIS MAY BE DUE TO THE BODY ELIMINATING TOXIC RESIDUE FROM DYING CANCER CELLS. THIS IS ALL UNKNOWN AT THIS POINT.

I PERSONALLY HAVE EXPERIENCED AN AMAZING RECOVERY FROM A TALUS BONE FRACTURE AND DISLOCATION THAT DEVELOPED AVN (LOSS OF BLOOD SUPPLY). I HAVE GONE FROM A WHEELCHAIR TO CRUTCHES TO A SUPPORT BRACE TO BARE FOOT. THE AVN SEEMS TO HAVE STOPPED AND I AM WATCHING FOR CARTILAGE REPAIR TO BE VISIBLE ON MRI. I HAVE VERY LITTLE PAIN UNLESS I WORK ON IT ALL DAY. SOME SWELLING STILL OCCURS BUT I TAKE NO PAIN MEDICINE.

I AM SO GRATEFUL FOR THE BLESSING OF THIS DEVICE AND THAT IT HAS ALLOWED ME TO BE SELF-RELIANT AGAIN.

## **TESTIMONIALS**

These are just a few of the many testimonials we have received from people using the machine for non-cancer related purposes. Testimonials can be given for the cancer patients upon request.

*I wish to express my thanks for allowing me to experience "The Machine".*

*Friday April 6th 2007*

*I had extreme sciatica pain in my right leg. This occurs when I drive long distances. I sat with "The Machine" for approx. 20 minutes directed at my lower back. The pain was still there hours afterwards. Yet, when I woke up the following day, the pain was completely gone. I even went for a 12 mile bike ride. It has been 6 days since, and I still have no pain.*

*Thank you so very, very much.  
Sunnee*

*My name is Kevin Garcia and I have been training in the martial arts for over 20 years. I started fighting when I was 15 and have accumulated many injuries along the way. Kickboxing, boxing, mixed martial arts, judo, and Brazilian jiu-jitsu can be very taxing on the body. I have broken many bones, torn tendons and ligaments and have developed arthritis in many of my joints which has plagued me for years making it more and more difficult to compete. I eventually herniated a disc (4mm) in my neck that retired me from fighting. I have tried several different medical procedures ranging from cortisone injections to steroid injections and have taken different anti-inflammatory drugs that only masked the pain. I own a martial arts school and it had become difficult to perform even basic techniques.*

*On May 07 I was presented with this new machine and was given the opportunity to test it out. The results were nothing short of amazing. The arthritis in my wrist and knees was gone (broken the left wrist twice and had knee surgery). My lower back felt better than it has in years. My left ankle in which I had torn the ligaments felt like new and most of all the chronic pain in my neck from the herniated disc was gone. This machine has made it possible for me to train and teach class pain free. I am very grateful and hope to see this machine help many more people like it has helped me.*

*Sincerely,  
Kevin Garcia  
Master Instructor  
American Kickboxing Academy*

I WANTED TO LET YOU KNOW THAT AFTER ONLY 4 TREATMENTS WITH THE HLX8 MACHINE MY SHOULDER PAIN HAS TOTALLY RESOLVED. I AM ABSOLUTLY THRILLED WITH THE RESULT. I WAS RATHER CONCERNED WITH THE PROSPECT OF MEDICAL INTERVENTION SINCE THE PAIN WAS QUITE SEVERE FOR A SIGNIFICANT PERIOD OF TIME AND THIS ALTERNATIVE TREATMENT WAS A GIFT.....

THANK YOU FOR THE OPPORTUNITY TO USE THE MACHINE, I AM MOST GRATEFUL.

MICHELE HUGHES

APRIL 15, 2008

*Since last November I have experienced considerable pain stemming from a severely herniated disc at the L-5/S-1 level that is pushing on my sciatic nerve. My physical therapist said it's the largest herniation he's ever seen (20mm) and is surprised that I can walk. After one session with the machine, I noticed things felt like they were loosening up in the area of my injury. After my third treatment, I woke up the next morning pain free for the first time in six months. I continue to improve as a result of using the machine. I'm very grateful to have come across this amazing new technology, and am excited to have an effective new treatment that has no side effects and will hopefully allow me to avoid surgery.*

*Peter*

*Sausalito, CA*

*I was laid out in bed for three days unable to walk for more than a few steps. I was suffering from a 10-year-old lower back problem that affected me on and off. After my first day of using the machine for approximately three hours total the first day (in an hour and a half increments) I was back on my feet. I still had pain but to a much lesser degree. The second day I used the machine for an hour and went surfing. After a week I was about 80% better. By the fourth week I was 100% better. I noticed that I had an increase in endurance as well as flexibility. I felt like I was 10 years younger. I had a moderate sprain in my ankle, after three sessions of 45 minutes my ankle was back to normal. This was within a 48 hour period. I have used the machine for various injuries as they have come up and have had immediate positive results.*

*Kyle Cohn*

*May 7th, 2007*

*This morning I went surfing and on my way into the water I rolled my ankle in a ditch in the sand. My ankle was hurting pretty bad although only slightly swollen. The machine certainly did the trick. Within 5 minutes of standing in front of the machine with it focused on my ankle, I already noticed significantly more strength. My first thought was that it was simply a placebo effect, but about an hour later I had reason to believe otherwise. I hadn't been paying attention to my ankle until I skipped up some stairs. Now I knew there was something more to it. It's still only been two hours since using the machine, but my ankle still feels better and I can't wait to see how it performs while surfing tomorrow.*

*-Nick Howley*

*My neck had a lot of knots in it and it is 90% better [after using the machine]. My lower back had moderate pain and I don't even notice it at all. I have noticed also that I have dark brown hair growing in the back of my head which used to be gray.*

*Randolph P. Cohn  
RPC Designs*

*I suffered from an injury to my lower back while surfing. After using the machine for 45 minutes I felt my muscles loosen up and the pain subsided. I also notice a very calming and soothing feeling from the machine. I was able to get right back into the water and surf again.*

*Tyron Shapiro*

*I wanted to write about the wonderful results I experienced from two sessions of using the "healing machine".*

*After hearing about the "machine" (and some of the relief the use of it provides for arthritis sufferers) I expressed my eagerness to try out the machine on the arthritis I have in my thumb joint on my left hand. I had been living with pain, inflammation and lack of full mobility in my thumb for about 5-6 years. After using it for a 20 min session I had an amazing amount of relief for such a short amount of treatment time.*

*My pain and inflammation went from an 8 (on a scale of 1-10) to a 3. It also gave me a noticeable increase in mobility from the first time using the machine for just 20 min. After about one week I had none of the pain return. After the second use for 20 -25 minutes I noticed even less inflammation (and now the degree of pain was at 2 maybe even a little less than 2).*

*Courtney Luddon*

## **HLX8 FREQUENTLY ASKED QUESTIONS**

### **Q What are the benefits of using the HLX8?**

**A** We do not claim any benefits of the use of the HLX8 in order to comply with all the government agencies. We are merely reporting the benefits that users of the HLX8 have reported to us since it was created in December of 2006. Users have claimed the following benefits.

1. Cancer put in to remission (continued use should keep it as such). This includes stage IV that doctors had given up on.
2. Arthritis pain helped or removed.
3. Greatly accelerated recovery from various muscle sprains and strains.
4. Age reversal. This is throughout the body. Not only do users report feeling much younger they also look much younger. This includes grey hair reversal, younger and tighter skin, much greater endurance, greater sex drive and sexual enjoyment, greatly increased recovery time on physical exertion, increased balance and athletic ability and removal of age and liver spots. All the things that go with youth are basically realized by continued use of the HLX8.
5. Headaches removed in as little as ten minutes.
6. Recovery from long term injuries - including bones damaged by accidents.
7. Reduction of the effects from colds or flu. Example: sore throats and aches are much less painful within minutes of using the HLX8.
8. Carpel tunnel pain greatly reduced or eliminated. Users report that by placing the HLX8 next to them while working on the computer the pains that would normally occur are eliminated. This allows them to work all day on their computer or other tasks that would normally have them in pain and yet be pain free. One user reports total relief from thoracic outlet syndrome that would leave his right arm numb after using the computer for less than an hour. He is now able to work all day on the computer and be pain free with zero numbness.
9. Fibromyalgia pain reduced or eliminated by using the HLX8.

There are many other benefits that have been uncovered and certainly many more yet to come. Whatever your condition, the HLX8 may help you. You should

try it even if we don't have experience with your condition and see if it works for you.

### **Q What are the side effects of the HLX8?**

**A** The only reported negative side effect is an anxious feeling similar to drinking too much coffee. This only happens after many hours of continuous use and goes away very quickly once the HLX8 is turned off or you move away from it. If the HLX8 is used as recommended then it is highly unlikely that you will ever experience this feeling.

A side effect which could be construed as a benefit is a large energy increase especially in the first few days of using the HLX8. Some have reported that this has led to trouble sleeping, but there is no tiredness the next day as you still have lots of energy. This energy side effect is less apparent after the first week or so of use.

Another side effect that would be considered a benefit to most people is the smoothing of the skin that occurs with continued use of the HLX8. After several weeks of use your skin will become noticeably softer and smoother.

In addition, another reported side effect of using the HLX8 would be the reversal of grey hair. If you have grey hair, continued use of the HLX8 could reverse your hair color back to what it was previously, but it may not do this evenly. So if your hair is grey it may become darker. If you dye your hair temporarily you can mask this effect until your hair is all one color. It is unknown how many years of grey hair can be reversed, but we have seen over 10 years of grey hair color reversal. So you can see the only real negative side effect is the anxious feeling that occurs when the HLX8 is greatly overused and again this will go away once you turn the HLX8 off or move away from it.

Some couples have reported an increase in sexual pleasure, performance and endurance.

### **Q How does the HLX8 work to correct INSIDE the body?**

**A** This answer is not a claim but a theory based on the results that have been seen. Our current theory is that normal healthy cells line up in a row due to correct charge orientation in these cells (unhealthy cells do not line up normally due to incorrect charge orientation). The HLX8 emits a specially structured field that causes unhealthy cells to be forced into alignment or die, whereas healthy cells form even stronger and tighter bonds. Our current theory is that cancer for

instance is an irregular cell structure that cannot be aligned and live, therefore the cancerous cells die when forced into alignment by the HLX8.

**Q Are there interactions with drugs?**

**A** There have been no reported interactions of using the HLX8 with drugs. Caution is advised for any use of drugs with the HLX8, but once again we have no reported cases of drug interactions with the HLX8.

**Q How long do I need to use the HLX8?**

**A** This depends on what you are trying to treat. Some ailments can be treated in as little as 10 minutes whereas more severe ailments may need up to two hours a day. Cancer users should use the HLX8 for approximately one hour a day and should not exceed this amount until their C.E.A. levels drop below 20. Some users with cancer have reported a dynamic increase in appetite and energy levels within three days of beginning use of the HLX8. Depending on the cancer you are treating it can take anything between one and six months to become cancer free, the larger the tumor the longer it will take. Continued and correct use of the HLX8 should keep you cancer free.

**Q Does the HLX8 have FDA approval?**

**A** At the present time we are beginning the process of getting FDA approval for the HLX8 – although there is no requirement for such approval as The HLX8 emits no harmful radiation and it is totally non-invasive. No negative side effects other than those mentioned above are reported at this time.

**Q What if you are pregnant or trying to conceive?**

**A** We have no information at this time so we must advise caution in this area. From all other results we expect no negatives in this area and only benefits, but again we must advise caution if you are pregnant or trying to conceive.

**Q Will using the HLX8 hinder the effectiveness of various birth control methods?**

**A** This is unknown, but we have no reported cases of this being a problem. Caution is advised at this time. Certainly there should be no effect on condoms or diaphragms or their effectiveness in birth control.

**Q Can more than one person use the HLX8 at a time?**

**A** Yes. Depending on the effect desired you may have more than one person using the HLX8 at a time. For instance if your treatment requires you to only be three feet or less from the HLX8 then of course two people could both be three feet away and receive the benefits. For most conditions it is better to have the HLX8 dedicated to one user at a time. Of course many different people can use the HLX8 throughout the day and all will receive the full benefits of the HLX8 when used properly.

**Q Will the HLX8 affect my love life?**

**A** Users have reported only positive effects from using the HLX8. This includes greatly increased pleasure and stamina for both males and females using the HLX8 during sexual activity.

**Q Will the HLX8 help with HIV or AIDS?**

**A** We have no known users of the HLX8 with HIV or AIDS. We do believe that the HLX8 could be helpful in fighting off HIV or AIDS due to previous results with other problems. You can certainly try the HLX8 on HIV OR AIDS and return it after 60 days if you don't realize benefits from its use. The HLX8 should at the very least give HIV or AIDS sufferers increased energy and endurance at the very least. But once again this is only speculation based on theory and experience with other symptoms.

**Q What about female menstruation?**

**A** Some female users of the HLX8 have reported lighter and less painful periods. There have been no other reported effects of the HLX8 on menstruation.

**Q** What about using the HLX8 for ADD (Attention Deficit Disorder)?

**A** Users with ADD report a calming effect that helps them slow down and focus much better. An HLX8 placed in the area of someone with ADD may actually eliminate the need for drugs used for ADD. Caution is advised when any change in treatment of ADD is undertaken.

**Q** What are the long term effects of using the HLX8?

**A** Long term effects are not known at this time. Caution should be used when treating children and adults of child bearing age.

**Q** Will the HLX8 help with wrinkles?

**A** Users have reported greatly reduced wrinkles with long term use. Those using the HLX8 for more than six months have reported this effect as well as an overall change in their skin towards a more youthful appearance.

**Q** What about the mental effects of the HLX8? Will it give me bad thoughts or dreams?

**A** The HLX8 is reported to actually calm users down and give many a deeper and more restful sleep when used as directed.

**Q** What about animals? Will the HLX8 help my pet?

**A** Yes. The HLX8 emits a field that is beneficial to all warm blooded creatures. The same benefits that humans have experienced should also be realized by animals exposed to the field emitted by the HLX8.

## HOW DO I PURCHASE AN HLX8?

As of May 1, 2008 the prototype version of the HLX8 (shown above) is available for purchase in limited quantities. In July 2008 the production model of the HLX8 will be available for purchase and prototype models of the HLX8 can be exchanged for the production model at that time if so desired.

The current selling price of the HLX8 is \$10,000 U.S. and the results are guaranteed in writing by Nebion LLC (please see Guarantee section).

If you use the HLX8 as directed for 60 days and you have not achieved very positive results you may return the HLX8 for a full refund minus a 10% handling charge. Currently we are able to ship the HLX8 within one week of an order and there is a one year guarantee on manufacturer's defects and reliable operation of the unit for personal use.

Nebion LLC accepts the following cards:

If you wish to order an HLX8 please contact us at: [REDACTED]

Many thanks from our team at Nebion LLC for your interest in the HLX8

## **HLX8 Guarantee**

Nebion, LLC Guarantees that the HLX8 will significantly improve the condition of the ailment that the end user purchased it for under the following conditions:

The user must use the HLX8 a minimum of 30 minutes per day as instructed by representatives of Nebion, LLC. for a minimum of 60 days. The time used per day may vary if so instructed by representatives of Nebion LLC. After 60 days of use the customer may return the HLX8 for a full refund minus a 10% handling charge if there is no significant improvement in the ailment for which the HLX8 was purchased. The customer must pay the shipping and handling charges and return the HLX8 in good condition. The customer has a period of one year to return the unit for the refund minus a 10% handling charge of the purchase price.

The HLX8 is guaranteed against manufacturer's defects for a period of one year from the date of purchase.

This guarantee is governed by the laws of the state of California and is non-transferable.

Nebion LLC
