...have you also decided which option makes more =ense to you: a multi-year prize or support of a =#8220;Scialogue"?

Also, is there any chance you can get an indication =f interest from Templeton in our proposal? If they decide to support it, =e should honor them – assuming they would like that – and =nnounce the initiative at our Gala to which I invited you because we will be =reating a special theme in the area of brain science. =o:p>
