Jeffrey

the cabinet is taller than our ceiling in the warehouse, so we can't assemble it there.

we have unboxed enough to understand it I think

a 16' ceiling in a 16x32 building seems out of scale to me. the kit=hen is close to that size and its ceiling starts at 11', bottom of =he truss is 13'

if you want to pursue that ceiling I think we should get some architectural advice.
