Hi Jeffrey,

I hope you had a nice Christmas!

Enclosed is Reputation's non-disclosure (signed by the general counsel=). This is to protect your privacy. The company will need to get your=name before I can get a specific plan of how they will tackle your situati=n.

They have a division that deals with Wikipedia and creating protected =ages but are proprietary of giving out details, until they have your profi=e.

Could I give them your name?-- and/or send them back the NDA with your=signature? And I will start working with them to give you a detailed plan =f attack.

take care,
