Jeffrey

As discussed attached are they preliminary numbers for Phase 2 of the water development plan.  
This involves the following

Well B Location

Replacing the pump in Well B with a 50 Gpm pump New shed at Well B and K to house, phase converter, electrical and controls

Well 4=Location

New Pump Skid to meet existing and future demand Extra 10,000 gallons of storage Metal building to house pumps, storage and controls

How do you wish to proceed
