Hello Jeffrey! How are you?

I started to study and love it very much. But now it is very difficult to work - most of the castings are held in the morning or during school hours. I'm trying to work on the weekends but it is very rare. (Photo from my last working Saturday). I prefer learning....

I like school but is very upset that very hard to earn some money. In any case, I'm enjoying my classes. In the sample classes, I chose the "explorer of visual art" and "History of New York." We already went with my class in one of very unusual gallery and I was very impressed. I highly recommend you go there, it is very special gallery. It is not surprising that it is very popular and therefore, unfortunately to get it to stand for several hours in the queue but it's worth it! I would love to share with you my impressions (which I will now try to describe in my essay-homework) but I still hope that you will go and feel what I felt. So I do not want to say anything yet on this concrete. I only say IT IS awesome! This is an amazing limitless space of light and illusion. Please, go there, you will not regret it, I promise. I am even ready to go with you if you want. I would be interested to see your reaction. A0

Indescribable experience.

P.s. Jeffrey can I please have an appointment to see a Dr. Victor? I really need it... already... very much! Please

Hugs,
