Subject: flight hours

Attachments: hours.png

There is no data about numb=r of flight hours of each pilot involved in an accident/incident, but I lo=ked up co-pilot hiring minimums for each of these airlines and compared it=to their safety record over 5 years. It's interesting...
<=r>
Co-pilot hiring minimums:
6 airlines require =nbsp;<1000 hours - ALL have max 3 accidents/ incidents & no fatalit=es per 1 000 000 takeoffs

20 airlines require >=1000 hours - 11 have 4+ accidents, deadly accidents or 4+ incidents per 1 =00 000 takeoffs
=   &nbs=;

BEST:
A=rlines with 0 accidents and 0-1 incident per 1 000 000 takeoffs:
Expressjet
Cape Air
Sun Countr=
Air Transport International
2 have co-pilot hiring=minimums under 1000 hours!

W=RST:
Airlines with 5+ accidents or deadly accident or 7+=incidents per 1 000 000 takeoffs:
Alas=a Airlines
Continental
Coma=r
Delta
Frontier
Trans St=te Airlines
United
US airways
ALL have co-p=lot hiring minimums over 1000 hours!
