**Subject:** Google account password changed

The password for your Google account - jeevacation@gmail.com - was recently changed.  
If you made this change, you don't need to do anything more.

If you didn't change your password, your account might have been hijacked.

To  
get back into your account, you'll need to reset your password by clicking this  
link: <https://www.google.com/accounts/recovery?hl=en>.

Important account security tips:

- Never give out your password or personal information by email or on social networks. Google will never contact you to ask you for your password.
- Never use the same password for Google and other websites.
- Add your mobile phone to your account so you can easily pass Google's security measures and make it hard for hijackers to get in.

Note: This email address cannot accept replies. To fix an issue or learn more about your account, visit our help center:  
<https://www.google.com/support/accounts/bin/answer.py?answer=1628875&topic=15641&hl=en>.

Sincerely,  
The Google Accounts Team
