Greetings S,

I contacted a local =ursery (Bryan's Plants) to see what species of bamboo was available if =E just wanted a sample, while Arran is researching with the PR nursery. =They carry two species:

"Golden Goddess" (Bambusa multiplex): =aximum height 8-10 feet, stalk about 1 inch in diameter, sold in 7-10 =allon container for \$75;

"Hawaiian Stripe" =Bambusa vulgaris Vittata): maximum height 50 feet, =talk about 4 inches in diameter, \$150 each

Bryan's Plants confirmed having some of each in =stock, their weekend hours are Saturday 8 am to 4:30 pm, and =unday 8 am to 1 pm. The accept check or cash, no credit =ards.

Please advise, DW
