Good afternoon,

We have just completed a telephone interview with a very promising couple, for the management team at the Ranch. After all the resumes and interviews this is the team.

Young, positive, family background of managing properties, he can operate a boat, willing to travel, understanding of the requirements of working within a private household, attached their resume. Please note the cover letter has his name as Jason it is James Would suggest that they come out to the Ranch while we are there and see how it goes.

Please advise

Warmest regards

[REDACTED]
