**Attachments:** epstein.05.24.12.pdf; Untitled attachment 00119.htm

I spoke with Jeff from Cutting Edge who told me the following:

- a) He had a typo on proposal and the digital Projector is 5500 Lumens not 500 Lumens
- b) 1080p = still currently the highest digital format
- c) Reprogramming the crestron for shades is including in quote - going forward if Creston fails he thinks IPAD would be more efficient as a replacement
- d) System is Apple TV compatible - Jeff said receiver controls this not Projector and you have a very good receiver
- e) Two other systems he mentioned were:
  - =/span>1) Cinehigh (used by ESPN, 10,000 lumens & not 3-D) - \$24,000
  - 2) Titan (used by NFL, 10,000 lumens & 3-D) - \$52,000

Please advise if we should proceed with current quote totaling 16,128.74 (including sales tax)
