Subject: One of the Five Palms statues - August 7, 2012
Attachments: Statue (1).JPG; Statue (2).JPG

Greetings Mr. Epstein,

One of the statues that=lon repaired during his trip has suffered damage. I discovered this tod=y while I was in Five Palms looking for the fire extinguisher. Both=statues were located in a corner, covered under plastic sheeting after=A0lon completed the repairs.

I brought it to Danny's attention immedately. He=has no idea what could have happened as no one was in Five Palms recently.=A0 The landscaping crew worked outside, completing the rebar installation =nd tie down of the five palms on the entrance side of the building yest=rday and today, but that is the only crew in the area this week.

I emailed the photos to lon earlier. He is presently =n Romania, but believes someone hit the statue by mistake in passing. A=cording to his recollection workers would stop in to see the ceiling even =hen he was there. lon believes the statue was pretty sturdy. He says=he checked.

lon is suggesting that Brian could repair the statue.=A0 He says Brian has some type of glue, and that Brian said he did this =fore.

Would you want Brian to proceed, or should =anny store the statues until lon is available to repair the damage?

Respectfully,

Daphne
