Dear Lesley

Please tell J=ffrey the following :

Tsinghua university is the best unive=sity with the best students of China .

The university , upo= my suggestions , agree to build a campus in Boston area to have full inter=ctions with local universities in Boston and America The a=bition is to build it to be a first class insititute connecting research and=academic activities between China and America , or the rest of the world Besides building the campus itself , we are looking for fifty m=llion per year to hire first class scholars , Postdoct and students. A=d interacting with faculties from Harvard , MIT and other places =span>We want to start out on the following subjects : math science which is=taking in Broad sense : mathematics that are related to oth=r science including biology .phyiscs and economics .

Manage=ent linked with Harvard business school .(Warren McFarlan of HBS may be in=erested to come to work there . And so is Sloan school) Go=ernment policy linked to JFK school of Harvard .

The first s=age is to build on this area and we find a building on 1550 soldier fields r=ad , not far from Harvard It has 44000 sq ft and 150 parkin= space . (Potentially one can buy up the neighbors to double the space) I e=close some explanation here .

In the mature period ,=we are looking for operation budget of 50 million dollars per year .

But at the beginning , it would be much smaller =lease let me know I what Jeffrey thinks Best regards=br>Yau
