Jeff:

I have 2 islands for the price of one - \$18 million.
High Cay has a residence, a harbor and solar power and is about 43 acres.
All buildings and infrastructure are first class.
Powell Cay (293 acres) is the large island to the west which the owner of High Cay owns as well to insure his privacy.
1/2 of Powell is crown land owned by the government of the Bahamas which will never be developed.
Owner moving to Indonesia thus the willingness to sell.
I will send you info on Powell in another email.
