**Subject:** GSJ Internet

Anna and I spoke with Hector (who is very smart and a =leasure as compared to [REDACTED]) from Choice. He explained that we can =purchase a new Dragonwave radio and register it on same FCC licensed =ink we have for LSJ. That radio will receive signal =from LSJ tower and existing LSJ controller would be used to access and =irect the GSJ radio. Hector believes that we would =ot need a new tower on GSJ and could use either a pole or mount on an =existing structure. Once signal was on GSJ we could =pread internet via access points by adding radios to where we would =like. wifi. Hector and his crew said they would =attempt to get to LSJ and GSJ by Wednesday or Thursday or next =eek...

Please advise if you know where you would like Dragonwave =nstalled on GSJ?

Hi Anna,

Would the area =here the red arrow is pointing to be the area the other side of the =ink would be installed?
