Anna and I spoke with Hector (who is very smart and a pleasure as compared to Terrence or Jerome) from Choice

He explained that we can purchase a new Dragonwave radio and register it on same FCC licensed link we have for LSJ

That radio will receive signal from LSJ tower and existing LSJ controller would be used to access and direct the GSJ radio

Hector believes that we would not need a new tower on GSJ and could use either a pole or mount on an existing structure

Once signal was on GSJ we could spread internet via access points by adding radios to where we would like wifi
Hector and his crew said they would attempt to get to LSJ and GSJ by Wednesday or Thursday or next week...

</iv>

Please advise if you know where you would like Dragonwave installed on GSJ?
